Arhyas Command Background, Theory, and Characteristic

See: Paradigm Shift or Collapse of Civil Society-The Crisis brought by Disruptive Technology

As Arhyas Elemental Command Prayer Technique is created to meet the challenge of Psychotronics abuse ^[1]scenario in my life involving victims of students and parents, I put the criminal investigation of the Trafficking cases as part of this tutorial as well, offering some clues and techniques as to help solving this crime.

The more reasonable is that one of the key factor from the incriminating technology used in the Human Trafficking Crimes ^[2] is precisely of psychotronic nature, and the theoretical development and reverse engineering of this harmful technology in order to develop counter strategy and healing modals is a way to help victims that are both Trafficked and not trafficked.

Our approach here may be a world leading model in the efforts of stopping Human Trafficking crimes worldwide by focusing on stoping the psychotronic abuse and healing victims from the harmful frequencies, as this approach could be promoted to the United Nations (<http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/UNESCO>) to be practiced around the world, to make bigger impacts in our fights against Crimes Against Humanity.

of this Brand New Creation of a quasi-spiritual scientific invention called the Arhyas Elemental Command Prayer Technique, in terms of Human Evolutionary History, the tension between Scientific vs Spiritual Development

The issues confronted me and ultimately challenged my intellect and spirit in the creation of a set of prayer and mental exercise involving scientific modeling, and spiritual power, is one that has confound the majority of our population, on in the position of victims, i.e. the issue of psychotronic abuse.

Till this day, there is no known political answer and technical solution, medical cure and spiritual healing modality known today accepted as standard. In other words, to the rest of the world, this problem is not yet a solved problem.

But I venture to propose my solution to be one example of the answer. In order to make the argument, one has to start with what this title mentioned.

To this day, I can state with confidence that my creation here DO solve the problem from the fundamental level.

Evolution, Auto-Immune Response, Transformation of life

Example: Butterfly transform from something that crews on the ground to something that flies in the air, philosophical question is whether that transition moment is joyful, pleasure or pain?

My Answer is: It should a joyful one.

This butterfly question leads to another question in human life. Human life is actually less natural, and more artificial in terms of pleasure and pain, which means, pain and pleasure are artificially manipulated, too much over ruling nature itself, even against nature, and so much so, our biology devolve into our current sad state.

The belief is that our biology is a reflection of our mind and spirit. And the idea is that, if we manage to change what we think, how we think, and what's the stuff in our spirit, it may induce fundamental change in our bodies. For example, the moment a mother give birth to children should never be a painful process, much like the butterfly, are we even less in standard of life than the little butterfly?

Something is not quite right.

The Hero Path Development

"if we wish to remain human, then there is only one way, the way into the Open Society ... into the unknown, the uncertain and insecure". ^[4]

“The unknown or uncertain circumstance” “as the will, the means...(and) “the Way of Safe Passage”... ^[5]

These two statements made by different authors in different contexts, are essentially expressing the same truth, one is inclined to objectively anticipate security to be at risk when traveling an unknown and uncertain path, while the other more bravely taking the unknown path with will power, and ironically turning the unknown, uncertain way to be the way of Safe Passage. The latter, is rather a statement of faith.

This is also an example of The Heroic Path^[6] taught by Joseph Cambell, and a very special version is unfolding right here between China and America, when we are confronted with this difficult challenge of the psychotronic abuse and the crimes involving victims from all 3 countries: China, U.S.A and Russia, as students and scholars in the educational programs, infiltrated by shadow power with crimes.

We need Joseph's idea to guide our actions, and we also have something very special, regarding the hero, it's the Heroic Probability, which can be directly used in the healing aspect as well as solving crimes aspect.

From God is dead, to Man Must Become Godlike

Freidrich Nietzsche: God is Dead.

John Zhang Washington: Man Must Become Godlike.

The prediction that the trafficked female student victims would proudly walk out of the dungeon they were setup by Dark Powers, would show case this example as statement from the Spirit in the Declaration of Independence: that Man(Woman) are created equal, and that they are endowed by certain unalienable rights, among these, Life, Liberty, and the Pursuit of Happiness.

It would also show case another example that once Human Being become spiritually embodying the Deity, i.e. the Statue of Liberty, "she is walking forward amidst a broken shackle and chain."^[7], as she walked to Freedom, holding tall the Torch, is the spiritual power any human being can embody, even the programmed weaken female in our race.

That the Divine Feminine Spirit, can be properly embody, through very special skills with code inductions, environmental care with regard to Electro-Magnetic balance, and sensitivity to Mind Control/Psychotronic frequency, through self-practice of Bio-Regenesis Programs.

Meanwhile, the creation of this Spiritual-Manefestation Mentra exercise, the Arhyas Command is man's answer to the spiritual challenge from the materialist dark age, in which oppression and abuse is once again exercised through technological abuse, when nowhere to turn in the tide corner of the prison, man is left with himself and his God(same goes to Woman), that he may be inspired with a new creation, to overcome the Dark Techno-Terroristic State, and be free again. This is precisely the case with my solution to the Psychotronics problem, in which, a simple reciting the intend of my creation with sacred language, coupled with precise mathematical language, making miracles right from the mind, against the mind control attacks in the air, this and furthermore, coupled with the trafficked victims in their worse case scenarios, able to walk out by themselves, without dependency on the authorities, and surrendering their power, on the contrary, their salvation, is the result of their reclaiming their Divinity.

This is the new path of Humanity, the path towards Divinity, the way home our Source

This transnational trafficking students from the United States to China case in Zhanjiang, involved criminals infiltrated into the Chinese National Security Department, as well as some dark power in the United States. A joint investigation from both countries is called for.

Russian Federation is the only country having law to protect citizen from psychotronic abuse

MK ULTRA PROJECT : Russian Draft Law with Detailed Descriptions of Psychotronic Weapons ^[13]

In the case of the Russian Professor's family under such attack, they should directly make the complaint through their government agency, reporting the specific crime using this law.

This Anti-Mind Control Technique Development/Traffick in Person Criminal Case Development Report shows the danger in the trafficking cases between China and U.S.A. for the lack of International Laws to Govern the Psychotronics Mind Control Technological Abuse Phenomenon in relation to the Trafficking in Person Crimes

The theory that both victims from the U.S.A. are under Mind Control attack, before they arrive in China, to fall to the setup, again further attack by the Mind Control weapons, indicates the weakness in lacking management and transparency regarding this secret weapon in both countries. Both governments choose to hide from the public, its secret impact to public health, and criminal forces, and denied in general, claims from countless victims by these abuses, resulted in the technology turn both countries into Techno-Terrorism States.

The Legislative effort to manage and control the use of this harmful technology must be pushed forward, in order to regain public safety and international security.

The United Nation should have international standards regarding the psychotronic abuse

We shall use the data and experience gathered here in Zhanjiang, regarding Psychotronic Abuse, specifically, its technical data, and its system, how it affect victims, when this case is finally solved, to promote to the National Legislative Effort in China, and also promote to the United Nation's effort in defining specific types of psychotronic abuse.

When we meet the challenge of certain crisis, the bigger the crisis, if we succeed, the bigger contribution to mankind.

Eventual Legislation on Mind Control Psychotronic Crimes by the United Nations is inevitable.

It is a Crime Against Humanity offense that all governments should stop committing.

The timeframe of the victims I know of:

2018 summer, her name I believe is April

The year was 2018 around summer time, first victim was attacked in the Chunjin Park, and her load scream was heard around 10pm one evening. I don't remember the exact date, as that was also a time myself was under severe attack by psychotronic weapons, issued by the Five Star Kindergarten and the mafia behind this Kindergarten, located at my family school address, No 14, Xinhua Road.

This student was allegedly killed with impression of the clone interference, but later I believe she is still alive and been abducted ever since till today.

2023 Summer, her name I believe is also April, and she might be the twin sister of the first victim stolen from birth hospital

The second victim arrived in China during Summer 2023, she was abducted at the School Gate again at the Five Star Kindergarten located at my family school property, No. 14 Xinhua Road.

July 29 I believe it was the date she was kidnapped, while in the morning around 8 am, she was trying to walk in to my school area, being stopped by the security guard hired by the Five Star Kindergarten, and then allegedly forced to be taken away by some other stalkers following her that day, either right into the underground system of tunnels or in nearby dark room in the building across the street.

She's been trafficked and forced to prostitution under heavy Mind Control Frequency attacks and poisoned to lost of her voice.

She's believed to be sold for forced sexual exploitation at some room behind the public toilet building, trafficked through underground tunnels between the room of selling her and the room of hiding her.

Latest News: The Russian young girl who is the daughter of the Russian Professor family is abducted and victimized and maybe kept together with the American girls, there are now totally 3 victims at least!

I met her and her mother at the flower shop a while ago, and know her name is Sha Sha, she's only high school. The government is covering up and not telling the public when danger is around, because the criminals are in the government.

She has been attacked by the Remote Sexual Abuse Network for a while, and I did my prayers often for her, but lately I discovered just yesterday she's been missing for around two weeks. Her parents, father and mother, of whom I have soul communications with, but only met her mother, her name is Anna, together with Sha Sha at the flower shop one day.

Latest News Critical Development: April 15, 2024, She finally walked out of the dungeon apartment on top floor of the Apartment Build at Number 13 XinHua Road.

In the afternoon around 2 pm, she walked out of the dungeon room, as my prayer intended. I eyewitness on my security camera by the street when she was walking by:

She is reddish dirty blonde, wearing blue jeans, her expression is carrying a lot of anger. But she walked with a certain toughness in her body, as if she is ready to pick a fight. She is obviously a white woman, by the way she walked and her hair color.

Her expression matched her experience of undergoing the ordeal of torture as a trafficked victim.

She is still in danger, as she has not found her way to walk right into my school located at Number 14 XinHua Road , where she could be hosted for healing and investigation of the crimes from the University/High School, and regarding her missing sister.

This hideous crime requires serious investigation, in the meantime, she needs a safe place and trustworthy guardian.

I am holding the LinNan University Responsible for her life until I see her in person.

In the meantime, I would focus my prayer again, to guide her way to safety.

Suggestion as How to Solve This Case While the Victim is out of the Dungeon

- Take the first opportunity to have this Victim write down who the attackers were, since she could not speak, write down the name and descriptions, start arresting the criminal suspects.
- Take extra care to protect the victim's life, as before all the criminals are arrested, she is in constant danger no matter where she is.
- Recommend to take the offer for Victim's Special Need: Invitation and Contract for Victims of Psychotronic Remote Targeting/Trafficking Abuse to Rehabilitation at our family facility
- Pray for the Souls of the Victims and the Victimizers, yes, we include the Criminals in the Prayers for Victim/Vimizers

Important: Before The Criminals are caught, she is still a target, and in great danger, no matter where they put her

Latest News Critical Development: Criminal Equipment confiscated by Special Force, April 19, 2024

Last night(actually this morning before dawn), I heard a load voice in Chinese from the Apartment Building in the back, right next to my build, allegedly where criminals are conducting psychotronic abuse every night, "Don't Move", and also a loud bang on some metal gate.

My impression was that some special force went in to take the criminal's equipment as evidence.

This totally changed the situation, now there are plenty of evidence of the criminal network, and as I woke up in the morning, I realize the Astral Field has victim Clone Hijacks, I did the usual clearing commands, and then I realize it was the investigation team pushing button on the criminal system, resulted in Soul Fragment Hijacks.

I immediately telepath to this team, and informing them regarding what the system does to victims, asking them to just look for data of victims, and not push the "Activate" button, to avoid creating victimization anymore, particularly children.

I think they heard, and I continue to perform Arhyas Command clear as needed.

One important message, the missing girl from Summer of 2018, her demon clone was activated multiple times, although I was emotionally involved with this victim for a long time, due to the abuse of this system, I then realize it was the investigative team not knowing what goes on and pushing the button.

The chances are now, this victim may be resurrected even her body is kept by the criminal boss in refrigeration. It is a real possibility.

Victim(s) where about uncertain still, April 19, 2024

Regarding the victim who walked out of the dungeon apartment on April 15, I believe she is still ok, where ever she is, since there might be two criminals arrest within the National Security Department, her danger is a bit less.

But still, I am concerned about her safety, and continue to send telepathic message to offer my invitation to host her stay while the criminal investigation is undertaken, in order to avoid criminal intend to happen, because she is in China, as a foreign student/scholar, without ability to speak due to poison, and no lawyer/legal guardian or representation from U.S. authority, that put her in much grave disadvantage and the Chinese authority is NOT trustworthy up till now.

I am the only American Resident around town, and knows about the case for a long time, my host family arrangement should prove more secure until she find proper U.S. protection.

It's important to remember, the interest from corrupt authorities from both side of China and U.S. is to cover up, and this may lead to injustice to the victim(s), and even murder.

Before proper News Media can be involved, cover up would be their main game, and this might not serve justice at all.

Be extra careful at this critical moment in a very complex criminal case, involving deep corruptions on Eastern and Western Hemisphere of the planet.

There are criminal intends from both U.S.A. and China. We the people, must stand on high ethical ground, beyond government interests, because solving this case, will also solve a lot of related crimes involving Human Right Abuses, and both government might not be willing to open up the can of worms.

Regardless, public safety as well as safety of the victims, require our vigilance and care, this might be a long battle between good and evil, till ultimate justice could be achieved.

Victims are both alive!, April 20, 2024

As foretold, the missing student in 2018 is found somewhere on the street, bairly covered, taken to the hospital and in critical condition, while the second one who is supposed to be in good hand, fell again today, to forced exploitation, although as the crime unfold, she might be in good hands now.

My intend to offer this safe place would only be accessible to them, once the whole evil collective in this city is utterly defeated.

I believe it has been since noon, as I administered the latest upgrade of Arhyas Command Quarantine Upgrade (https://keylonticwiki.peertalk.net:8192/index.php/Arhyas_Command#April_20.2C_2024_Upgrade_15:_Quarantine_the_Evil_Entity_from_which_Evil_Intend_deflected_back_to_itself_preventing_crimes_to_manifest_on_victims)

The alleged party boss criminal will be caught by law, who has committed crimes of forced fake marriage with the first student, and constant domestic brutality, resulted in her committed suicide due to unbearable torture in her body and spirit.

She was kept in some refrigeration for further abuse of remote target birthing of demon clones hijacking her soul fragment from the corp, a sacrilege. They wouldn't leave her in peace even after death.

But my prayer for her resurrection come from the divine loving heart, made her come back to life again today!

Now she rest in hospital in critical condition, not completely out of danger, but because my Quarantine of Police Headquarter where National Security Department with criminal infiltration committing the remote targeting, her safety is somewhat secured.

That's the second Miracle, the resurrection.

The other sister's where about, uncertain, allegedly in the hospital too, hopefully in good hand.

We pray that good forces act fast to arrest the criminal organization as I describe as suspect list, so danger could be finally removed and both victims be safe, and find their way to my school.

Also quarantined today is Washington D.C. where I resigned from a Federal Engineer position during 9-11, 2001, this is a call to end the corruption and black hole influences in the Capital since 9-11, that history and its truth is not yet discovered and verified. Much work still need to be done in that regard, in the direction of ET assault on the east coast of the United States with Trumpet Pulse Technology, opening wormholes, using 9-11 plane hijacks as cover up of free fall matter vaporized phenomenon from the attack, by airplane crash, which has already raised tremendous suspicion and doubt of the official story.

The twin tower free fall as seen by the whole wide world, can be studied over and again, to prove finally the theory of matter demanifestation by Scalar Pulses.

This will also make transition of humanity as a whole into the next phase of the Enlighten Age, post Dec 21, 2012, away from a.k.a. Armageddon (<http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Armageddon>).

Current Status April 24, 2024: Fighting Back Winning

- Victims are getting closer to be identified, location of Mind Controlled Sex Slave identified
- Two men allegedly die from violation and bodies vaporized through Bhardoach Rites
- Police Headquarters' Mind Control Equipment and database destroyed by Arhyas Elemental Command Prayer, effectively saving victims in the general public to be more free from the Mind Control Agenda. Arhyas Elemental Command Prayer Technique is a passive practice. It is not aggressive, and never assault people or entities. It only deflect the attack wave back to the source. Therefore, Police

Headquarter is NOT the aim of Arhyas Elemental Command Prayer, neither are its personnel. The Arhyas Elemental Command Prayer would only deflect the attack wave back to the source and disable its equipment and ability to hurt people.

Current Status April 26, 2024: The Darkest Hour before the Dawn

Around noon time today, allegedly another teenager international student was kidnapped and imprisoned in that Black Empire Building across the street from my family house. Address: Xinhua Road, No 13, Chikan District, Zhanjiang

I adjusted my camera pointing towards that building and it is under surveillance from remote.

We will do more prayer today as we speak to help the situation.

The identity of this victim is still under investigation. But my impression is that this is Sha Sha.

This might be the Dark Power again doing their Digital Clone Acting of another script to deceive me. I do not exclude this possibility, so I am still constantly observing the crime scene.

There are other voices telling different stories, such as there were victims at that Apartment Unit, who committed suicide. This is the soul from neighbors who alarmed by my surveillance camera and responded in the soul plane.

I take down this information, again, everything just data.

I don't believe this suicide story, as this is the most used technique in the past, is the spread rumors in the channels, about their victims committing suicide story, in order for the public to loose hope, to stop their effect in saving them.

Therefore, I don't believe this story.

I do believe my work in the prayers is helping though, because I have not felt anymore of those demons for quite some time.

We will see.

Current Status April 27, 2024: A New Hope By Changing the Past

After I upgrade Arhyas Command with changing something back in the timeframe of September 11, 2001, in blocking the psychotic frequency/slut frequency from the wormhole to transmit throughout the planet, the big change is still happening right now as the Event Horizon is recalculating.

The hope is that all victims will walk out alive from the Black Empire Building, undefined.

Critical Point May 9, 2024: My effort of surveillance technology upgrade pushed the criminal to move the victims elsewhere

I have upgraded my surveillance camera to solve this crime and it can clearly identify the persons in question. Even since I installed yesterday evening, there have been changes. I believe the criminals realized they are exposed and they secretly again move their trafficked victims through underground tunnels, this time they went back to the City Government.

There is good and bad forces at work right now at this critical point, situation is not settled. There are definitely temptations to corrupt more officials in the government in joining the criminals to rape these helpless disabled women. And I believe there are also definitely good forces at work in their rescue.

So this is a good point for prayer. Let's wish that good force ultimately prevail!

Furthermore, let's pray for the Souls of the Fallen ones, both Victims and the Victimiziers, for the Victims, let's pray for their full recovery and safe passage to freedom, and equally for the Criminals, to turn back to God, or turning back to be good again.

Critical Point May 23, 2024: The First American Victim from High School might still be in the building with an illegitimate child(with camera evidence)

Latest discovery on surveillance camera shows that there is a short figure barely above window with white hair, and seem like an old lady, but height is that of a child. This is allegedly the illegitimate child from raping the high school student from United States trafficked to this City by corruption in the Educational Program.

This is additional discovery that is building up the case. Although the high school girl victim is not yet seen in camera, the story is that she is hidden from sight always, and always in bondage.

Both the student and the child are being abused with the Sexual Abuse Through Remote Targeting to rip them off great deal of profits until they die of reduction of critical life energies over time.

The student might be forced to sexual slavery with clients visiting the building as indicated before through secrete underground tunnel system, just like the alledge hot spot unit of such crime on the 3rd floor.

This Black Empire Building is a hub in the Matrix of Criminals utilizing Psychotronics System on the population at their wimp, and target everybody to serve their criminal objectives of profiting from forced prostitutions of American/International students and even international travelers. Because this city is infiltrated with this underground criminal network, with literal underground tunnel access points to conduct abduction and kidnapping, and with privileges to wipe out street security camera recording when important events of crime or victims shows up, the evidences are immediately erased so that crimes can continue to happen without public notice or police attention.

This is how dangerous this city is, to both international students and travelers, despite the appearance of non-violent surface.

The key point here is that there is an alleged Organized Criminal network directly infiltrated the Federal Government of the United States with mostly likely the deep state, to traffic American Families to China to be abused.

The secrete they all have is the Psychotronic Weapons, both the U.S. and China possess, which weakens the victims before they are physically kidnapped, and continue to bombard them with Mind Control Frequencies to subject them to abuses without much resistance.

In the case of these victims in China, the first thing they do is make them loose their voice and unable to speak and call for help.

My Arhyas Elemental Command Prayer can only buffer the attack frequencies for the victims so that they survive till a point to be rescued, or walk out of the Black Empire Building themselves when their Soul Fragments are recovered and their strengths restored.

I am still working on getting definitive evidence of their identity before I can get the police involved to their rescue, and due to concern of the corruption in the Chinese system, involving National Security Agencies, who are responsible, as I take it, to handle security issue for foreigners visiting China. However, when criminal organization infiltrated to the National Security Department, space is open for crimes which is not possible normally.

Critical Point June 9, 2024: The Second American Victim from High School new suspected location

Latest psychic impression leads me back to the building besides my school building. This building has been historically problematic, it has been used as location for digital clone astral demon manufacturing, remote sexual targeting, and now almost confirmed location for trafficked victims on the ground floor.

A second personal visit in the evening, discovered that the 101 unit which is the first one facing the building stairway, is the most suspicious, while 102 lives a woman, 103 a guy.

Woman pointed me to the phone number for when I asked about foreign student living here, I called the phone number and talked to a man who is supposed to be the owner to lease units here.

I told him I am asked by her parents in the United States to look for their missing daughter, as they have not been able to talk to her for a long time, so they ask me, a special American Teacher in China in the same city to look for her.

This man denied about it, and asked the name too, I told him the name is April, also explaining the meaning the month April in Chinese to him. He denied having any foreign student. From talking to him, he told me his building address is Number 9, 921 Road, instead of the Number 15 seen on the street.

Further observation indicate, unit 101 has lights on during certain period of time, and have clothing hangin outside the back.

We will keep observing from this point. It is believed that this unit is the one that has special access to the secrete underground tunnel systems, and whoever lives there are the Rogue Gang members who holds positions in the Police Force themselves.

They are the one handles foreign students, the school these international student are in their charge, so they are the only possible party who can traffick international students more than one occasion, and systematically, collaborating with some dark power from within the United States.

The fact that I had this same student walked out of the Number 13 Building through my prayer, and went back to her school, then keep falling to the same Criminal Setup, indicates this is very likely the case, the school had no power when it comes to international student in this city, they seems to depends on the National Security Department to handle international student, and that Department is where this Gang of Criminal infiltrated the government, along with a Gang Leader infiltrated the CCP of the city, who had access to the underground secret system.

Only the Military or certain privileged power in the Government, i.e. the National Defense Department, had access and are responsible for these secrete asset.

Critical Point June 10, 2024: Turning back on the Apple Ethernet to purposely allow the American Side of the Demon Clone Dimension to be healed by Arhyas Elemental Command Prayer

I purposely turn back the Apple Laptop network to be on the default RJ45 builtin, instead of 3rd party USB replacement. This way, I allow the Demon Clone Network from the U.S. side of the Virtual Hologram to be activated in my SpaceTime, and apply my Arhyas Elemental Command Prayer to continue to heal the other side of the planet.

During which time, good results:

- My daughter and her grandmother are healed, and they are coming back into my life. Since yesterday, they have come in to the School property and visited me twice now. This is big because they were pushed off by the Psychotronics Mind Control agenda in this evil city. This Chinese Festival Day of 2024 marks a definitive victory of the Arhyas Elemental Command Prayer.
- I believe the corrupt police I identified in the Apartment Unit 101 on the first floor I visited yesterday, are in the process of turning good. They will be called to the Amnesty Contract stated in my Invitation and Contract for Criminals of Psychotronic and Trafficking Abuse to Recover from their Spiritual Disease Document, to turn themselves in and submit to the Law of the Land, and admit all of their guilt in the horrible crimes committed, and to explain in detail how they hook up with the Shadow Power in Washington.
- I also believe they will let the victims go and set them free, allowing them to come to my School to be students here, following the Invitation and Contract for Victims of Psychotronic Remote Targeting/Trafficking Abuse to Rehabilitation at our family facility document intension. This allows a new spacetime to be created to heal the much damaged Sino-US relation as the Mind Controlled Trafficking Students Conspiracy has severely damaged the relationship between the peoples.
- The good frequency I carried with me coming back to China, is healing myself and everybody in this world. I am humbled.
- After I turn back on the Apple Network Default connector on my Mac Book, I did observe violence of abuse of digital clones of the two American Students in the Astral Field, I immediately responded with my Arhyas Elemental Command Prayer, also the Russian home study student Sha Sha also was abused in the network, and I helped her too.
- We are at a very delicate point of crisis right now, and the change of tide is good. I am still praying for the criminals to take my offer the Amnesty Contract, which would minimize damages to the Victims and the Relationships between the Peoples, although I am not stopping my work with the Arhyas Elemental Command Prayer and continue surveillance work to gather more evidence.

Critical Point June 12, 2024: The First American Student Stolen by the CCP Boss resurrected, after New AL-Hum-Bhrus Baptismal Rite last night, she is expected to show up at last, simultaneously or about the same time frame, with the Second Victim, as the second victim was probably released out of the underground tunnel prison last night, because the criminal took my Amnesty Contract offer(if they don't, they will be banished quickly by divine power invoked by my prayer)

I believe this miracle of resurrection due to my prayers could only be confirmed when I actually meet her. Confirming the miracle is not important, what is important is to see this victim alive and well, and not fall to the dark places again.

Coming to my school and accept my help in her recovery to full mental and physical health, will complete the rest of the miracle.

We don't know she is still able to speak. But from the experience I had with my own father, who is also a victim of the exact same abuse by poisoning of EM frequencies, lost his voice. My father was walking on the street after being paralyzed, and speaking with improving voice and Chi.

This young student will recover fully, because of my specialty in the MCEO teachings.

I am praying that she pick up her courage and to break away from the darkness around her, to come see me finally.

We may not have seen each other yet, but our Souls have been in contact for a very long time. I hope she realize there is no need to consider me as any stranger, even from the stand point of meeting a friend also coming back from America, that alone is enough to strike a friendship, not to mention there has been so much involved emotionally in the Victimization and Salvation experience.

God willing, she will appear.

The challenge and difficulty is the Scam of Digital Clone Astral Demon attacks we both experienced that are meant to distort and destroy our chance of establishing any friendship. This craft of lies will ultimately fail, because the truth will set us free.

I am going to properly do the New AL-Hum-Bhrus Baptismal Rite for both of them right now. In good time when they see this prayer they can recite it themselves and make it complete.

Critical Point June 16, 2024: Happy Development: Daughter coming back to my life

After what seem a very long time of Mind Control Attack and Cell Phone Scams interference, both the grand mother of my daughter and herself are fine now, in terms of mental interference being overcome, and they are back into my life again.

This Father's Day Holiday marks a literal celebration: **【父亲节父女团员】** (https://www.bilibili.com/video/BV1RvVjecE8?vd_source=dcdaef57f19ec53defd1a0d4f1c37807)

Critical Point June 17, 2024: Both The First and the Second American Students Trafficked Victims are in the local city's Law Enforcement system, which is a crisis where the corruption still trying to creep in to commit murders in order to cover up

This is when we all need to do our part, as this usual case involves the integrity of the Chinese National Soul.

The corrupt part of the system actually carries the legacy of the Jiang Zhe Ming, Japanese Traitor inclination.

We are not passing judgement here, but we do point out the specific forces that have been one of the key factors in shaping this conspiracy.

I believe the Chinese People in general would not allow the Japanese influence that is damaging the Sino-US relation in committing horrific Crime Against Humanity, the seriousness is no less horrible than what occurs in WWII, only in upgraded Hi-Tech, and avoiding public notice.

It is a conspiracy.

Should the Chinese People once again wake up to this infiltration to their National Spirit, in Crimes Against Humanity again, they will, for sure, do what is necessary, to defeat this evil again!

God Bless the People and Country, and save our Victims!

Critical Point June 24, 2024: Both The First and the Second American Students Trafficked Victims are lost in the mass, specific area is the Ma Zhang Village vicinity

There has been attempts in the Law Enforcement system during the time when the victims got out of the private prison and under investigation, to kill the victims by starvation.

Some kind people took bold action and rescue them from the prison, but the victims didn't stay at these kind people's house, because they don't speak English, and their intend is not certain from the perspective of the victims. Remember, the host family situation was the first time, she was betrayed! So the Chinese has lost their credibility even though they may be smiling to the victims.

Therefore, they took a first opportunity to escape.

This creates another crisis, because their weaken conditions, they may fall into the wrong hands again during the efforts to come to my location, which seem to be their only chance to somebody who speaks English, and understand their situation from Day 1, and have been paying close attention to the cases.

They tried to walk here, but unfortunately, strength weaken and fallen to some uncertain hands again.

This is now a final crisis. Can these poor students be free from the Chinese at last? This is a challenge to the Chinese as a Soul Group. Can they work together, and salvage the lost Soul of their race?

Critical Point June 30, 2024: the Second American Students Trafficked Victims is still in the hands of the Traffickers, they took her back secretly this weekend to Number 13 Building

Critical Point July 2, 2024: the Second American Students Trafficked Victims is still in the hands of the Traffickers at the Number 13 Building, camera caught the AC running while the window never opens curtain

see: [Surveillance Camera Database](#) updated footages

Psychic impression shows this family is problematic, and probably from background that has some issue in their psychological profile, the fact that two boys and a girl lived there, and the parents still engage in crimes of housing the vicim and prostituting kidnapped victims from foreign country, shows how messed up they are right now.

I only pray that they turn to good, and let the victim out, and spare the children of this serious karma. In fact, I will do more prayer on this.

Latest Status July 28, 2024: the First Trafficked Victim (code name April 1) in good hands of some folks, while April 2 in the hands of the Military Units status unknown.

Missing since 2018, April 1 is now hidden in private homes, some folks are trying to help her, and protect her from the Gangs, so she is probably in good hands at the moment.

Missing since July 2023, exactly a year ago, April 2 is probably in the hands of the Military Units stationed in this city, as the Underground Tunnel systems was stolen by Criminal Organizations to commit crimes of trafficking international students, the Military probably already taken back control of the system, and found the surviving victim. Due to uncertain politics, and uncertain further corruption within the Military, the victim may fall again to the wrong hands, and being further abused, unless she is made free to the public.

Both victims are still in danger of being betrayed again, because their home country has not come forward to claim their lives, although secret investigation has been underway. Good and evil forces are both at play, and we don't know for sure when and will the victims be liberated.

My assessment is that, there must be a resolution on U.S. side, to catch the traitor who betrayed the family and suppressed their father, mother, using mostly probably psychotronic abuse, making them unable to come forward to claim their lost children in China.

So that is why I keep sending my Invitation and Contract for Victims of Psychotronic Remote Targeting/Trafficking Abuse to Rehabilitation at our family facility to the victims and the public using this website, to inform them that the best and safest way to keep the victims is at my school, and I could be their legal guardian, as an American Person, and with proper written contract, to have legal power, during the process of sorting out the corruptions in both countries.

This civil act, is the only certain way, to avoid further victimization due to corrupt politics in sacrificing the lives of victims for political conspiracy, in violation of fundamental human rights.

We the people, are the only trustworthy collective, but how and who should be responsible, is fair chance in life, when we all do our best.

see: [Surveillance Camera Database](#) updated footages

The specific criminal I remember responsible of trafficking this victim is what I called "The Tall Guy", as he is rather tall.

The victim is still unable to speak, and now perhaps in even worse condition, she was hurt by the legs, so she could not run or walk. Condition uncertain, but definitely involves extreme brutality.

I did my [Arhyas Command](#) Prayer immediately this morning and I think it helped:

Latest Status Aug 2, 2024: "April One" not in good hands as we thought, still in hidden place, like underground dungeon, while "April Two" in the building right across the street, while the criminals who have been doing Mind Control attacks are all dead today!

My [Arhyas Command](#) Prayer was invoked yesterday on Aug. 1 again, focusing on the purging of these planetary dark powers as part of the Kryst Shift Mission, and invoking more of the Kryst Shift frequency resulting in fundamental shift in the dramatic turn around of the Criminal Cases. In that, the Mind Controlling Parties were completely obliterated by the power invoked with the Prayer.

So we are anticipating the final liberation of both Aprils, the twin sister fell victim in China.

The bad guys were killed because they were still trying hurt and murder these victims last night, and as such not demonstrating willingness to turn good, therefore, they are banished, as is the exact word in the Krystal River Elemental Prayer.

So it is God Will and Man Will, working together, to save these victims, with the [Kryst Shift](#) Background.

Latest Status Aug 3, 2024: "April One" has been used as Sexual Abuse Through Remote Targeting Targets, while "April Two" was found screaming very loud around midnight last night in the building right across the street, while the Eldest Son, a teenager, in that family, was abusing her using Psychotronic Weapon, he caused a electric shock on her body, and her scream very loudly, heard by everybody in the neighbourhood.

In other words, they expose themselves as of last night, Aug 2. 2024.

Latest Status Aug 12, 2024: Real Time Bending Event and Resurrection of both Victims

Yesterday, I got confirmation from vertical communications of dialogs, that some staff in the White House or the Pentagon were confirming the resurrections of both students after they learned about my [Arhyas Command](#) work in Time Bending and resurrecting these two victims in China.

Heard conversations:

From one lady who seemed to be a Commander: "Take (a look at the case of) [Arhyas Command](#)"

Another lady who seemed to be a staff member responded: "They are living!"

So we are very confident that this resurrection worked! We anticipate further real world changing events coming.

Aug 12: attempt to resurrect the murdered cat

I believe the Psychotronic devices they implanted on my family ground right here at Number 14, Xin Hua Road, has resulted in numerous damagers to people, and animals through out this past 6 years.

The latest events involving Mr. Yang's family being attacked, and the husband was hospitalized, while the wife and daughter psychotronically attacked.

This cat of mine is the latest crime they did. I think it was electric shocked, by hidden devices in that storage room they stole the land for, which housing some electronic psychotronic mind control devices and antennas inside.

The wild cats often display violent behavior on top of this storage building, it could very well be the case that my own cat who is mostly kept in house, near me, but occasionally let out, and found herself near these dangerous places, where the attack frequencies are strong.

The poor cat lost all appetite, and barely walked for the past three days. And this morning, while I was holding her, she displayed signs of her soul leaving the body, so she is pronounced dead.

But I will do my Arhyas Command to bend back the attack upon the attacker(s). In other words, these murderers will experience what my cat experience, every single bits of it.

And I do intend to resurrect this poor animal.

Aug 12, 2024, evening, 8:51pm, realizing to resurrect this cat, I must time shift myself, as the cat lives in the exact same time vector as I do

Time Mechanical Model realization to upgrade my Arhyas Command session on myself in Time Shift, to cleanse out Victim Victimization Programming from the life field, and Time Bend the incident without the murder event, in the new shift time, I shall promote myself in frequency, and back in time with the necessary high frequency, free from any VV game attempts, which means, no attacks on the school ground, and no cats murdered. This only was a few days, so the Time Shift is very recent, and can be attempted.

Aug 14, Cat resurrection appearantly failed, but there other important realization that not only the twin resurrected, but also a bunch of other similar victims

A good surprise that apparently not only there were the twin victims, but there is at least another lady shows up in the vertical, that she is also Time Bended to survive.

Detail about her case unknown at this point, but I am sure it will come to light in the future.

So we still very optimistic about this Time Shift success, we still anticipate major change in the world.

The fact that simingly White female victimization is on the world scene in hate crimes today, example like what is going on in London, having white girls brutally killed, is just a hint that there is ET dark plan to divide and conquer the human race, by creating racing hatred.

The one I have been reporting is about creating hatred between the Chinese and American.

the one in Londen is about creating hatred between Muslin faction and the White people.

This racial hatred is what the ET strategy to divide and conquer our human race, and their means is through psychotronic mind control technologies, which unfortunately all major governments are secretly buying, when they think this is something their scientist "invent".

Aug 18 2024, The Resurrection of the twin sisters in America, going through a shifted Timeline where they will reunite as a family, the lost child, found the parents and twin sister

While all these are still vertical communications, nothing in the 3D drama yet, but I anticipate some world changing event like the confirmation of the miracles, which will change the world in ways that I image it.

Which now I wish to elaborate upon

Wars, racial hatred, unbelievable violence, these particular violence are targeted towards innocent children, at school. I think something unusualis happening, there seem to be an agenda to stir up or create racial hatred. Unless, their mind are under some type of psychotronic influence.

I believe some type of mass mind control is happening.

So that's why I work harder in my research. And also thinking about the latest progress I made in the twin sister cases, about their resurrection in Shifted Timeline.

I now wish to orchestrated a major Time Line Shift around world, but I need people to work with on this Mass Awakening, Mass Frequency Shift.

Aug 21 2024, heard the twin talking about going to contact me regarding the resurrection events

Dream states now are relatively much more peaceful, as the Arhyas Command seems to work on auto pilot, and shielding not only myself, but instantaneously for other victims that come into my view, for example, this morning, some strange lady victim, and a man as targeting her, I intend my Aryhas Command Shield, and it instantly changed the situation.

They might be a triplet instead of twin, Jessie, as I remember, might be the brother. April 1, is talking to her sister regarding:

"remind him of something", she is communicating to her that she is going to make contact with me.

"you are going to find him to make you happy?" another lady friend of her said.

"yeah"

I will continue to work on the Arhyas Command as my mathematic studies progresses.

Aug 29 2024 With vertical confirmation of Resurrection of the Victims, we are bringing a closure to this fiasco of crimes, but anticipating a new beginning in a really profound New Era

My daughter got admitted to the exact same High School allegedly having the two twin American students trafficked and murdered, and allegedly resurrected and living in America.

My unwillingness to see the two twin coming to China again, is obviously a post traumatic reaction. Nevertheless, this is never before reported Miracle in human history, a real resurrection, this event will, as I predicted before, serve as a frequency upgrade to the Mass Consciousness on the planet.

This work of miracle is based on a complete new found faith and science, called the Keylontic Science, the event will be proof enough, for its validity and power.

Humanity will at last, have an opportunity to see in action, the new found faith, in saving the lives of innocent trafficked students, defeating the overwhelming dark technology in Mind Control psychotronic abuses happening around the whole wide world, in my opinion, resulted in mass murders in nation wars, and massive random murder of targeted school children in America, and now starting to proliferate in England.

Alongside the biological poisonous agenda, that is also popping up, i.e. the new covid-19 mutation, and the new Monkeypox epidemic.

It's not over yet.

But I stated before, this is the humanity Darkest Hour, even darker than WWII.

However, we are going witness the glimmer of hope, while the clock to ticking right into a sudden Noon bright Sun, as the dawn of this new silent era, has already begin back in 2012, 2013.

although the brightness is NOT reported, in the mass media.

I am starting it with a real event of miracle.

Summary of Suspects

- The CCP Party Leader who is also the Big Brother figure for the Criminal Society, name unknown, is the head of the criminal infiltration into Zhanjiang's government, who is the master mind behind all the crimes, and personally guilty of abducting, raping, forced and fake marriage of the first missing American Student, since 2018.
- The Five Star Kindergarten knows who this Party Boss is, they also were witness to the victims' kidnapping July 29, 2023 at the front gate of shared entrance located at Number 14 XinHua Road, Chikan District, Zhanjiang. Their security camera may have record of the crime.
- The Number 13 Xinhua Road Apartment Building Complex, this Complex is known location for housing Trafficked Victims as International Students from LinNan University/Affiliated High School. There are probably 3 or 5 such victims in the Building Right Now. They are kidnapped from known location that has underground tunnel access.
- The Five Star Kindergarten, located at Number 14 Xinhua Road(our family school property address that is occupied illegally by Number 2 Elementary School, who illegally rented the front building to the Five Star Kindergarten without property deeds, only after a year of illegal operation, bribed the city government to issue a fake double certificate of ownership of that particular building), build such secret access to the underground tunnels, at least two of them, to have children Mind Controlled through fake parents voice from the digital clones of their real parent, or threatened by a criminal's voice to enter the tunnels to go across the street to Number 13 Xinhua Road Complex, where they are molested^[23] and sexually assaulted.
- Suspicious Security Camera Footage of Children shows that they are allegedly trafficked by the Five Star Kindergarten located at our family school property located at No.14 Xinhua Road, to sell for sex through underground tunnel system directly inside the secrete access within the Kindergarten to the building across the street at Number 13 Xinhua Road.

The Kindergarten allegedly has secrete access to the underground tunnel system within their building. This Kindergarten is also responsible for the last kidnapping of the American Student reported July 29, 2023, she disappeared into the underground through this very Kindergarten.

- Her Host Family where she lived before the abduction, is guilty of poisoning her, sold for drugged raping.
- The National Security Department, is infiltrated with Criminals(both male and female), with expert skills such as:
- Erasing and manipulating City Wide Security Camera Recording.
- Mind Control Psychotronic Abuse on the victims, causing internal organ damage, insanity, lost of voice etc.
- Secret Tunnel Passage normal people don't know about to traffic victims.
- If victims are handled by the National Security Department, before the criminals in the Department are caught there, the chance that she would be murdered is super high.
- The Tianyu Internet Bar located at Number 21 Xinhua Road, who is secretly making Human DNA digital clones, and creating Mind Control Scripts and responsible for attacking victims(including children) with Pornographic Holographic Inserts from digital clones in the virtual reality program, that has a corresponding Astral Field Living Dimension.
- The Apartment Complex located at Number 15 921 Road where some residents are hired to create DNA digital clone victims for the Criminal Targeting System. This very building is also used to keep the trafficked victims through access to underground tunnel system, while using some apartment unit in different time, to use the special digital clone creation operation, and selling Sexual Abuse Through Remote Targeting Business. Unit 101, as discovered lately, is where the Corrupt Police Force, from the National Security Department, stationed there, and keeping a private secrete Prison within the city to illegally keep the trafficked victim underground by brute force, and allow paid access of Sex Violators to go in to rape the victim(s). The address number is Number 9, 321 Ave, instead of Number 15, written on the sign facing the Ave.

Some Clues to help solving this crime

Clue as to where to look: the underground tunnel system of the city which only city government knows the secret

The underground tunnel system is used to kidnap and traffick victims.

Clue as to listen to Victims call for help with Morse Code: SOS

The victims are most likely already poisoned to have lost their voice, so if they have their way, they might be sending out SOS signals by tabbing on walls with 3 dots, 3 long dashes, and 3 dots, repeatedly.

3 short tabs for "S", 3 long tabs for "O", 3 short tabs for "S"

Regular people in the population may not be aware that they are targeted by psychotronic Mind Control weapons. To my knowledge, this abuse in the region is severe.

Therefore, learning and practicing the solution offered in the Arhyas Elemental Command Prayer could bring the population up, in terms of immunity against the harmful environmental as well as personal targeting incidents, caused by criminal network that target citizens in order to create a weakened society for criminals to commit crimes without much resistance.

As individuals become stronger, ones ability to help solving the crime become bigger.

I myself am example of this transformation from being a victim to a solution provider.

Conspiracy Theory Emerged from this Criminal Investigation

How the Matrix as a Specific form of Cybersex Trafficking (http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Cybersex_trafficking) is created

Who created this Matrix of Black Empire of Sexual Abuse in the Digital Virtual Reality and Astral Plane Soul Fragmentation Abuse

On the China Side:

This is all profit driven crimes.

- Master Mind of the CCP Boss figure, who give orders to which victim family to attack.
- The National Security Department Corrupt Force, who Mind Control targets among the population at their wimp, using Psychotronic Weapon Systems coupled with the Internet, in order to create demand and supply in the black market of sexual abuse.
- Local Internet Bars, such as The Tianyu Internet Bar in Zhanjiang,
- Some local residents at a separate apartment building are making the digital clone out of the illegal possession of DNA information that is supposedly bought from the governments by the criminal organizations through the black market.

On the U.S. Side:

- Certain Capitalist from Wall Street investing in Crimes of Global Sexual Trafficking and Digital Sexual Misery with Psychotronic Digital Clones and Mind Control Life Long abuse network.
- Corruptions in the Federal Government that scam the international education exchange program between U.S. and China, in particular, the City in Zhanjiang, and the LingNan University and its affiliated high school.
- Targeted American Families are Mind Control attacked on all its members, i.e. Mom, Dad, and the daughters and sons, probably since their child birth time, making the children growing up with a certain weakness in their mind, susceptible to Digital Clone Voice-to-Skull abuse with the so-called Anti-Kryst Ring of Demon Clones in the Astral Field, replacing their real family/social connections, with the demonic digital clone birthed into the Astral Field through some secret high tech and abusing life as sacrelege.

When would the Targeted Mind Control Victims(students) be abducted and trafficked into Real Physical Crimes?

- They use seduction technique such as making the digital clone of a popular person, like myself(I am sort of popular in America, known generally as the Guy, who helps people who are impoverished by drug/alcoholic abuse, and long term help to help them get back on their feet), to lure the young girl who admire this character, and telling her that this great guy is now in China, with a lot of money because he owns a piece of land(which is not true, as I am only one of many family members sharing the inheritance, plus the transition to our ownership has never been properly settled, and no money generated for me personally). But this lie about the situation and the great character of the Guy would create a false sense of security for the targeted trafficked victims arriving in China, in this very city, and this local school.
- When the targeted student arrived in China, and discovered where this Guy is situated, she would come to the neighborhood to run into him, as in normal social dynamics. This is all perfectly normal and social life freedom should be respected and honored, because the Guy is founding his family school, and the arriving student is into Education as her career prospect.
- However, the Dark Power would begin their pre-meditated strike at the student at this precise moment, when the innocent student was about to leave the school, and come around to meet the Guy. They brutally abducted the student with physical violence. THIS HAS ALREADY HAPPENED TWICE TO TWO SUCH STUDENTS FROM U.S.A. and a number of travelers, who either swing by or just happened to be in the same town. The Gang violate ALL OF THEM, and keep them away from the public ever since, either dead or alive.

- The second actual scenario with the second student who came during 2023, she was betrayed by the assigned Host Family by her school. This Host Family abuse the trust and sold the innocent American Student who is persuaded or coerced to live in their house, instead of boarding at the dormitory at the school, for better living conditions, as a special treat to foreign students, sounding very kind and benign. However, this so called Host Family is already part of the Gang, and they would drug the student to sell her for sexual abuse while in comma, typical domestic abuses. It is all about the huge money they can rip off from the poor minor. The actual event that earned the foreign student's trust is some community fair, like the dragon boat festival, where the student is invited on the boat, and drum herself. This seemingly innocent culture event has a dark secret agenda behind the public. And after the student lowered her guard to the Chinese people in the village, she is simply a piece of meat, to be drugged, and gang raped, for a lot of money. This betrayal has sickened my spirit for a very long time.

What are they doing?

They are creating a Matrix, the exact idea from the movie the Matrix ([http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/The_Matrix_\(franchise\)\)](http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/The_Matrix_(franchise))))

In analogy to the story of the Movie, in our theory of this crime under investigation, Digital Human Cloning^[18] technology is used to create human clone that are preprogrammed with characteristics that is designed to be in the following categories:

1. Slut Demon-these would be used as Perceptual Interference Mind Control through technologies such as Holographic Inserts to create the demand in the black market, i.e. these demon would influence the real world, to create need to rape victims.
2. The Bitch-these would be used as Perceptual Interference Mind Control through technologies such as Holographic Inserts to create the hijacked victim shadow self to preprogrammed and inclined to be susceptible to abuse, i.e. rape and violence.
3. The Man in Black Demon-these would be used as Perceptual Interference Mind Control through Holographic Inserts to create the criminals in the infiltrated government departments, such as police, national security department, military, etc.

Then the DNAs of targeted victim/families are used to create this live demons, and got activated(birtherd) into the cyberspace as well as the Astral Plane simultaneously.

A literal Matrix is created. Now the Slut and The Bitch Demon would surround their targeted victims to interfere with their brain wave with Mind Control broadcast messages, so the targeted victims slowly think or behave like the demon around them, while during the "harvest" time, i.e. sexual frequency harvesting time while the target gone asleep, these demons act as Frequency Fence agents, to build up a network of sex harvest, to sell to customers around the internet.

A very important factor-Sexual Control: a specific frequency is transmitted through Scalar Wave technology, to excite the human body to sexual high, and target victims to arousal effect, this can cause the victim to loose conscious control of the body, and find themselves masturbating uncontrollably during sleep or hypnosis induced by Mind Control Frequencies.

This frequency is applied to targeted victims including children on a daily basis.

This is the Matrix in our real world today! And children are targeted.

It's so damaging, that the physical trafficking crime is constantly happening, in a place like Zhanjiang, China, where there is a secrete kingdom of criminals with secret underground tunnels that normal people don't know about, directly link to specific black buildings and rooms, to abduct victims from schools and universities to these secrete rooms, to be sold to forced prostitution.

One of the main tunnel path is between the City Government and the Building at Number 13, Xinhua Road, Chikan District.

So the actual scenario is that victims from the school and universities are abducted directly here in the City Government Area while they are conducting "official meeting" with the City Boss, who would probably directly rape the victim and then send them through the underground tunnel, to this address, where the rooms are reserved for government use or something.

I know for a fact, the victim in 2018, who was hit around the Chujin Park, was kidnapped to the City Government, and then being forced by the Party Boss to be his bitch, with a fake marriage certificate.

Now, subsequent victims, are hijacked in similar ways, all of them are sent to this location, where they are sold for prostitution, either directly in the room, or trafficked to some place behind the public toilet area. This I also know for a fact.

Today, I think, there must be 3 international students all lock up in this building.

First Degree Victims by Human Trafficking Scam(International Students in China):

The victims are Mind Control and Psychotronics abuse for a long time, to be reduced to subhuman status, by force, as in Trafficking crime, and they are kept in private prison to be used as:

- Brutality of physical violation by poisons to loose voice and ability to speak.
- Physical sexual violation by selling them as sex slaves.

- Sexual Abuse Through Remote Targeting violation by selling over the internet, and have their body used as live battery to be abused and sucked dry.

Examples of International Victims:

- Gena and her brother from U.S.A., my associates from MCEO classes, killed on July 1, 2018, across the street at the Number 13 Xinhua Road
- April from U.S.A. she was abducted since 2018
- April from U.S.A.(the twin sister of the first April), she was abducted since July 29, 2023
- Sha Sha from Russia, the daughter of the Russian Professor, abducted just these past two days

Examples of Chinese Children Victims as Child Molestation (http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Child_sexual_abuse) with Mind Control through^[25] Mind Control with Electromagnetic Frequency#4. Voice to Skull Technologies:

- My daughter Chen Xin Tong, was eye witness by myself showing her figure in the window of the apartment in question, located at Number 13 Xinhua Road, apparently she has been trafficked there, and her grandmother is not aware of. This is a case of Mind Control Coersion, making the victim loose all control and submit to some authority, or fake friend, to get into criminal situation. After the abuse, her mind is probably again bombarded with Brain Washing frequency to wipe out the memory of the crime. So next time, she would submit again to the criminals. Again, the way into that apartment is very likely through the City Government, and led by some authority figure through underground tunnel, directly to this Building.
- Children of the Five Star Kindergarten, located at our family school property address: Number 14 Xinhua Road, allegedly been victims of secret trafficking for many years, before I came back to China, I would say as long as this Kindergarten has been in business, that would be around 2 decades. They are trafficked through underground tunnels secretly inside the Kindergarten's building, location unknown, my feeling is that it is near some Toilet area, where they dig underground, and during which time, secretly make connection underground to this City Wide secrete system. Then children would be trafficked during sleep time through underground passage, directly across the street, into the 3rd floor apartment, to be sold to perverted clients who pay a lot of money for abusing children. The Time Mark that this kid shows up in the camera is around 4 pm, that is, after the noon nap, that is, after she is already abused, and mind wiped. Innocent as she was, there is only bleeding in my heart to think about this.
- Example of Noon Sleep Time Scenario: A child got up from bed to go to the toilet, a familiar voice of his/her own Mom or Dad inside the head directly transmitted inside the child's head, coercing him/her by saying things like "go through this secrete door and pass through the underground tunnel, to visit the specific apartment where there is a very clean bathroom", if the child resist this adventurous suggestion, this voice may change into threatening tone, like "if you don't do it, I will kill you!". As a result, the children are persuaded to go underground and be led to a room across the street, where the pedophile man there started to abuse them with body contact sexually.

Second Degree Victims by Sexual Abuse Through Remote Targeting (these include a lot of Chinese Children):

These victims are just remotely targeted for Sexual Abuse Through Remote Targeting abuse during their sleep, for sale over the internet. This category include children, and have their body used as live battery to be abused and sucked dry.

Examples of Children Victims include:

1. Children from my own Class of English(English Studies Collection),Music and Computer Programming, since I came back to China 2015
2. See: New China PeiTao International School class recordings
3. Children from the Five Star Kindergarten located at our family school address: Number 14 Xinhua Road, Chikan District, Zhanjiang
4. My adopted daughter Chen Xin Tong who has been attacked by the Party Boss, to "punish" her and her grandmother, for not giving in to his coercion not to form a relationship with me.

Examples of Adult Victims include:

1. Sha Sha's parents, her Mom Anna, whom I met at a Flower Shop only once.
2. My students' parents
3. My daughter's grandmother
4. An English Professor named Frank whom I met at Starbuck. I stopped talking to him when I realize they are attacking everybody who is close to me, to prevent me from forming social network, and breaking my existing ones, by attacking the members.
5. The whole Zhang Family Tribe Members from elders to children who inherited the Number 14 Xinhua Road, School property, been targeted for decades.

The list goes on.

The only techniques I endorse is that from the [MCEO](#) and my own creation in the [Arhyas Elemental Command Prayer](#).

This is important because technique is where it actually makes the difference whether it bring the result of healing or it may create reverse effect of what is intended. So care must be taken in this regard.
