Pandemic with Arhyas Command™ SpaceTime Modeling Prayer

Abstract

Arhyas Command, is a self created defense mechanism against Targeted Individual^[1] Attacks, with SpaceTime Modeling and Manifestation with Source Field, application of the Keylontic Science Time Mechanics Theory, and the practice of invoking the Kryst Shift frequency.

Introduction

As a Targeted Individual^[1] Victim since 2001, 9-11^[2] time frame, I have been a victim of systematic abuse network underground business in the dream state remote sexual abuse scenario through Multidimensional Black Hole Technology. I was employed by the Federal Aviation Administration when I was first sold to the underground Evil network. The cause of that is that I resigned from my contract due to reason of my team member being sexually harassed in the office and the boss of the contract company didn't want to handle the case properly. The victim and another team member resigned as well.

Somebody in the system then decided to "handle it internally", by selling my DNA to the Dark World of Sexual Abuse Network, in order to utterly ruin my life, so that I wouldn't have a chance to come after them legally. I wasn't aware of the abuse all this time until 2016 when I returned to China to take care of my ill father, when the situation of an occupied land by the Communist Evil power that refused to return it to our family, as required by law, but rather have been inflicting harms to my family members, my own father murdered using the same technology. I was targeted deliberately right at the school property, and that was when I started to figure out when this abuse first started, by theorizing how the abuse technology works. And how the two countries' governments seem to have a secret pack in this dealing.

I gathered that this technology is a top-secret among major governments, and it has been purposely leaked to underground businesses for abusing civilians and children, for profit. My conclusion of the agenda is that it is ET originated and is a direct implementation of the Mind Control agenda^[3] ^[4] ^[5] mentioned in the Voyagers books by Ashayana Dean (<https://g.co/kgs/cUkZXN>), and the Sexual Misery Program^[6] mentioned by Lisa Renee.

Evidence in the Kindergarten Surveillance System console, on my family school property , which also means it is in EVERY SCHOOL in China!, and every student in China is being sexually abused systematically! This evident proves numerous claims from countless victims in China being abused by Mind Control Psychotronic Attacks.

This picture shows the psychotronic weapon can target human sexual organ. Example of my gathering of the damages are:

- 1. It can be used to force a women to loose the ability to give birth.
- 2. Or force orgasm to provide remote sexual response.
- 3. Create body internal organ damages, such as causing Heart Attacks, and stomachache, headaches, blood flow during bathroom.
- 4. Sexual energy siphoning remotely and sell for profit in Global underground black market.(This is my own unique discovery, not found in regular Mind Control psychotronic literature, as it is based on my own experience)

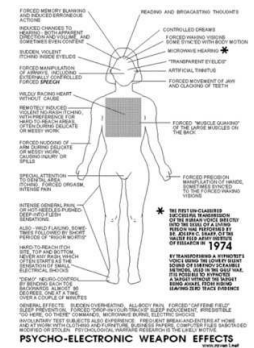

Arhyas Command™ Mission Statement

How the name is created

[10]

- Assist the spreading of the Message of Planetary Kryst Shift and Ascension opportunities by Research and development of the Founder's Teachings(Keylontic Science, Krystal River Mission related workshop materials) as well as contemporary science and technology, to come up solutions defending targeted individual attacks
- new theory and scientific proof of the existence and dynamic multidimensional frequencies as they are related to Frequency War.[11]
- fight the Covid-19 pandemic[12]

What Arhyas Command™ can do

Arhyas Command is my own Creation after studying the Science of Keylonta and Quantum Theory, and identified myself as part of the Krystal River Mission mentioned by Ashayana Dean. It is a mantra with prayers from the workshop techniques provided by Ashayana Dean, and my own unique creation of the Gyrodome Manifestation with the Mind and Visualization Technique which does a number of things to counter force the Attacks by the abuse systems mentioned above. It has been proven to be able to do the following:

- Block the sexual dream state attacks at night when fallen asleep by Dismantling the Virtual Reality Room Invasion from SpaceTime Bending, through Fourier Analysis[13] of the SpaceTime and decompose them all the way to its source of creation, even collapsing the controller's room.
- Free the hijacked DNA instance by Time Bending in shutting down electronics in the abuse system. But since it could be instantiated again with computers, this is an ongoing dynamic. The fundamental solution lies in stopping the evil agenda politically, and ground oneself in the faith of human evolution, and diligence in such development direction.
- Broadcast subliminal messages to the mass about the abuse system and wake them up.

- 24/7 blocking the abuse network from ever being started by the Command Crystals setup with codes.

Results and Testimony

Major Result:

- 1. May 30, 2021 Vertical Report: East Coast of the United States observed two miracle waves

My analysis: my work of Time Bending on 911 done on may 7, 2021 has results: Youtube recording of the real time event when I was doing my Time Bending Work: <https://youtu.be/HOjstydpzOk> (no longer available)

What it means is that my intention of bending back the psychotronic subspace sonic pulse that was hitting the East Coast of the United States during 911 period of time, when I was employed by the Federal Aviation Administration, was Bend Back by my Time Bending work. As a result, two good pulse from Source Field is initiated to counter force or irradiate the detrimental effect on human psychological, and mental health on the MASS level. This would play as a important event in the Kryst Shift History of the planet, one that is initiated by an awaken soul as an individual, applying Divine Science and idea of our contemporary science, to come up with a very effective and specific method of changing the past, from the NOW moment of co-creation with Source, shifting Planetary Time Line further aligned with the Kryst Shift Time Line.

- 2. The Chinese Abuse System is STOPPED by my work.

Detail: The Arhyas Command Crystal Network setup on my school property, and the Gyrodome Manifestation over the Internet, successfully preventing the Demon Creation through the abuse network from being generated. It works by spreading the Arhyas Command Mathematical Code Encrypted Manifestation of continuous flow of gyrolling sphere over the whole network. This gyrodome deflects the frequency of dimensions 1 and dimension 2, dimension 3 and beyond which are Metatronic and with specific frequency patterns. It works through the principal of phase conjugation and deflects the holographic insert^[14] dimensional frequencies from poisoning the network, by guarding at every hub and switch on the Internet. The Gyrodome is live being, able to self-replicate and traverse the network automatically. It traverses and spins at the Krystic Merkaba ratio, at the speed of trillionth of a nano second. It perpetually phase as the Partaki Grid phases, which is the process of fission and fusion that self propagate and sustain its flow. The “suck you dry” system failed to harm myself anymore, instead, it would deflect the evil intends back to the attacker, i.e. they are destroying themselves by their act of violation through the evil system, now back firing on themselves. Evidence: (coming event horizon)

Youtube audiences interacted with me and come up with results over time:

- 1. Eddie Balley, dreamstate assault case: testimony blog page in her own words:^[15]
- 2. Melisa, in London, her father miraculously cured from back pain problem, and walk out from the bed, with my Time bending Code work for him.
- 3. President Trump, I remote heal him from the Covid-19.(See youtube documentary on my Channel)
- 4. Myself as witness and testimony

a. Children in the Kingdergarden on my property, dreamstate sexual assaulted and sold in the black market. They are cured when I was present during noon time nap, and praying with my Arhas Command. But they are still abused at home at night time. Sometimes, I could help them, when their soul come and seek help in dreamstate, I did my work at those times, and they were saved. I am anticipating future events when the parents of these children will find ways to talk to me and provide real evidence. And together, we will pursue charges legally, once we identify the criminals.

b. My own adopted daughter, dreamstate sexual assaulted, pretty much the same as the other children mentioned above.

c. Myself, this abuse and counter force battle is on a daily basis

Results that still needs validation in time, which are the bold claims I am making and envisioning to happen:

- Resurrected Victim through the Time Bend
- Cured COVID-19 patients testimony
- Resurrected deaths from the Pandemic testimony

I make these claims based on my Theory of the Time Shift, and one can through prayer, pulling in a different Time Line for individuals and love ones, if one is dedicated enough and true enough in heart.

What is the Problem?

Theory of how the Multidimensional Abuse System works and its Agenda DNA Hijack by Government Systematic Abuse-an ET agenda

This major conspiracy to be completed by evidences all around.(This needs elaboration). Human DNA sample were collected mostly by government initiatives, then they are secretly collected to some Top Secret project, in which human clones are designed and manufactured through Multi-dimensional mechanism. My theory based on my own experience of how it works, goes like this: Certain facilities are setup in our living regions, or remote sites where strong frequency beams can be generated, such as HARRP, or something like the Woodpecker frequency fence. They are used to generate beams of Scalar Wave and target individual spot, in this case, the bathroom toilet, and two beams aiming at the precise location, the interference region called energy bottle, can stress local spacetime, resulted in electro magnetic force when human being are in the same spot using the facility, interacting with the invisible(to human eyes) weapons setup there, to inject a group of DNA templates of clones, into the human body, at the sexual reproductive area, and that would cause a birth of the demon, as we usually call it. These are manmade demons, through high tech weaponry, and it has everywhere in China, kindergartens, elementary schools, high schools, universities, general public facilities, wherever there is bathroom, hotels, in particular, are the worse, because they are pacts with the shadow government, in forming a sexual abuse network that are selling the abuse to buyers. Now the clones that are manifested through the above mentioned scam, are etheric in nature, i.e., they float around in the etheric domain, but are phased lock to a certain individual, namely the one who were attacked at the toilet by these invisible weapon, phased lock to their specific DNA signature frequency. So they are also phased lock to the remote center and network of abusers and attackers. The clones serves as tandem creature in a Metatronic configuration, Anit-Kristal (antichrist) setup. They are diabolic setup, because they are usually taken from your family, friends, and loved ones, in creating a Victim Victimization scam between loved ones. Now on top of the human drama of sexual abuse/sold for profit dark agenda of the Prostitution of your sleeping body scam, the real conspiracy of the agenda is that, I believe it is ET originated. The black hole ET needs to feed on human atoms, and sexual abuse generates the most quantum of such atoms. Below is the my theory after studying the Science of Keylonta, specifically the material from the Sacred Sexuality published work from Ashyana Dean, in which she detailed how sexual energy works in the human body. Combined with research of quantum mechanics, I come up with the following theory of how the “Such you dry” system works. I am the only one on the planet to first discover this theory of sexual abuse. ^[16] ^[17] ^[18] ^[19]

How does Dream State Sexual Assault work and what is its agenda-Theory of how remote dream state sexual abuse benefit the abuser and ET overlord from the Black Hole

Theory 1 DNA frequency resonance targeting

The system works by targeting individual by first hijacking their DNA, through blood sample collection, and use it to create some type of DNA clone which carries harmonic resonance frequency pattern to the individual, now when individual fall asleep, i.e. enter the Alpha Brain Wave state, 7 to 14 Hz, in particular, the system has a radar kind scanning coverage, and it immediately register in their system as someone just fallen asleep, the computer console of the abuser who pay the underground Black Hole Business, to get access to this individual, would see it pops up on their screen as viable to be attacked, i.e. rape in the dream state. The victim, because of biological cycle

dictates the body to fall asleep, lost conscious control over it while sleeping. The abuse network use the clone of the individual, who is resonating in the same DNA frequency range, the phase lock state would do something called forced resonance, and the victim would loose control and enter comma, while the rapist abuse the body of the sleeping victim, through the principle of remote transmission of energy through scalar wave fields, i.e. something like a Tesla remote transition setup. Only difference, the human body of the sleeping victim, is part of the circuit design, both as the inductor, and capacitor, etc, so much so, vital sexual energy is sucked off the body as electromagnetic waves, and transduced into Scalar wave, by the stressing and curvature of local spacetime, to remote spacetime, through something in Quantum Mechanics language, hyperspace. Hijacked DNA Clones as Remote Sensors -gather brain wave signals -trigger remote Nero circuitry reaction -cause physical body sensations through remote control circuitry

Theory 1.1 Extraction of Sexual Energy Remotely through Scalar Electromagnetic Principles

"By establishing a resonance between the distant site and the projector sites, randomized field zeroing that occurs in the natural temperature oscillations at the distant site can be utilized to extract energy from the site to the projectors. That is, one may extract electromagnetic energy from a distance ^[20]

Theory 2: Shadow Self Systematic Hijack

See published work from MCEO:

- Notes: Shadow Dancers, the Metatronic Code and the Signs of the BeaST
- Enabling Interdimensional mobility: Healing the Shadow Body (Elemental and Figment attachments, Astral and Dream Disabilities, Tag Teams, Hit Teams, SWAT Teams, Sleeping Dreams, Day Dreams, and Waking Dreams)

Principle of Shadow Dancer, only the Shadow Dancer is not within your own body, but it is systematic control by native aliens and their ground Illuminati world management team, power elite.

These shadow selves as hijack from the victims are phase locked into a frequency fence dimension in the Astral plane, and is doing what is called Astral Tagging, Astral Stalking, by surrounding the targeted victims. In this way, a circle of shadow selves DNA clone manufactured through the Apple Computer and Internet, illegally birthed through human Om-Shaddh-ei(the sexual reproductive power), in abusing divine co-creative power of human beings, is another major example of how Fallen Angelic has mastered Black Hole Technologies in abusing human population. This technology is transferred to 3D human society, i.e. infiltrated to government top secret projects, and underground illegal business of abuse network, human trafficking rings. Its purpose is to use human resources and industrial powers(Hi tech) to suppress human evolution, enslave their consciousness, and digress their genetics, into a sex slave race.

This ring of Astral Stalking DNA demons, are often the targeted victims's friends and families, and love ones. This way, their weakened(Mind Controlled) State of consciousness, has something in common, they all LIKES or LOVES the targeted victim, but their condition is Mind Controlled, and their energy is to suck off the life from the targeted victim.

This is mutual victimisation between the targeted individual, and the surrounding ring of hijack DNA clones, or Astral demons, manufactured through Hi-Tech network abuse system. Most diabolic!

In either cases of the Theories, an AI component is present, i.e. some artificial intelligent Mind is running, in controlling the hijack clones behaviour, mainly what they are saying. The following are the common type:

- describing what the target individual is doing
- making comments either from hatred or from admiration
- sometimes they become self-aware, and want to get out of the Mind Control

These multi-channelling is damaging to the DNA, and is confusing the reality of the targeted individual, and can over time, condition the target to be insane.

Final Theory

In the article regarding Keylontic Communication, the speaker gave us information about the difference between keylontic communication and channelling, which reflects what I experienced in the remote targeting abuse, in which channelling is happening, by a hijacked soul fragments birthed in the cyberspace as demons which also simultaneously exist in the Astral Plane, who is mind controlled completely, and are used as frequency forced phase lock, to establish channelling, in violation of the person's free will, and compromising his/her evolutionary potential, by stealing soul quantum, and mess up his/her timeline hologram, with Mind Control manipulation and Malice.

This theory gave me the ground of the solution towards freedom, which is proven by personal experience and witness accounts, in which the hijack soul fragments are free by a creative version of the Bardoah Rites.

Regarding Entropy and Energy Siphoning

[21]

"Entropy as a loss of energy in systems, works through principles of low frequency resonance, and can spread like a virus infecting others in the environment with the same entropic result, or loss of energy."

There are other various version of definition of entropy, the idea is similar, for example:

Energy dispersal entropy ([http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Entropy_\(energy_dispersal\)\)](http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Entropy_(energy_dispersal))), in which it says:

"In this approach, the second law of thermodynamics is introduced as "Energy spontaneously disperses from being localized to becoming spread out if it is not hindered from doing so," often in the context of common experiences such as a rock falling, a hot frying pan cooling down, iron rusting, air leaving a punctured tyre and ice melting in a warm room. Entropy is then depicted as a sophisticated kind of "before and after" yardstick — measuring how much energy is spread out over time as a result of a process such as heating a system, or how widely spread out the energy is after something happens in comparison with its previous state, in a process such as gas expansion or fluids mixing (at a constant temperature). The equations are explored with reference to the common experiences, with emphasis that in chemistry the energy that entropy measures as dispersing is the internal energy of molecules."

This is a more direct idea for measure energy loss, and it could be and probably is used by the Technology in question, i.e. to measure the victims state of energy in this term, in order to decide how the victim's body is responding to the event of remote siphoning.

From the literature of MCEO

E-ubis and Suc-Ubis

"The E-ubis and Suc-Ubis of history were the he and she devils that use sexual energy and suck energy off of people. The words came from the E-Ubi races." [22]

Threshold Technology

"The Threshold spiral is called "Threshold" because it is a grid that forms at the threshold between the atomic and etheric system and harnesses the Living Crystal Spiral around the 'time' the Winds of Allah- ALLA are activated, shifting them into a reverse Metatronic configuration."^[23]

Real Examples of Abuse:

My daughter whom I adopted when she was just 3 years old, already a targeted victim at night. Her grandmother reported coma syndromes, and signs of almost out of breathe, and dying when she sleeps. The doctors diagnosed no abnormal condition, i.e. she is healthy. Only display this very strange condition during sleep, like she is running out of breath, and completely in comma. I believe she is a victim of the same type of abuse that I have been going through, i.e. Dream State Sexual Assault. The children in the Kindergarten on my family's property, are all victims during their noon nap daily. Somebody is selling though and making a huge profit. I have no idea how long this abuse has been going for the children. I am thinking, it has been going on for some 50 years. We are talking about thousands of children right at this location alone. Not to mention the whole country. I can't image it without my heart getting sickened. They are able to commit such crime, because they were Scalar Wave technologies imported from the former Soviet Union, to the military, but now being abused to assault the people everywhere, of all ages, gender, classes. I suppose, only privileged and high ranking Communist Party member have such access and power. The general public, are but a bunch of money making, animals to them. I can't image other forms of Human Rights Abuse greater in its scam, more diabolic in its effects.

Transduction Sequence Theory from Science of Keylonta that is the foundation of the Theory of Holographic Insert and its Solution

Radial Body Transduction-Manifestation Sequence (Steps 1-5) [3]

What is my Solution?

Space Time Model

Theory of the Attack Model with Hologram within the hologram or Holographic Insert

A term I learned from Ashayana Deane's published article, regarding how Aliens Technology of Frequency Fence to manifest Holographic Inserts. As the experience I had is similar to those scenarios, i.e. having physical sensations without seeing them with my eyes, when the abuse happens. But according to the Author, those technology wasn't possible as the Guardian did things to prevent the Frequency Fence to be established around the planet. But my thinking about the principle of how hologram works and how frequency can be generated by our current technology, leads me to believe it is possible that this technology is transferred to their ground asset, i.e. their Mind Controlled assets infiltration to our governments, to implement something similar in principle, but with 3D technology of computer networks, satellites, human DNA frequency targeting algorithms, similar to what other researcher of Targeted Individual has discovered. But my model stems from my own experience and it uses Keylontic Science model of Time Mechanics and Modern Physics SpaceTime Model ideas, plus idea of Phase Conjugation to deflect waves back to the source. As far as I know, I am the only one using Phase Conjugation towards Time Wave. And the discovery of Astral attachment of Clones of familiar people, as demonic circular setup to ensnare your mind and to facilitate Frequency siphoning from your body, is also my unique discovery. As I have some vertical ability of hearing. Basically it's channeling, and possible Voice To Skull abuses. AI Timeline insert, a term borrowed Lisa Renee's literature. But my association and study of the Keylontic Science for a number of years, allows me to use those knowledge in healing myself, to the point I could function and fight back. When my mind works again, and my sexual energy is not sucked dry, as they say, I am many time more productive than the years before me. It's amazing how big is the difference. For that, I hold eternal gratitude to the Lady who gave the planet and me a second chance in life.

My Space Time Model for the Attack of Subspace Holographic Insert Attacks

- Space-Time
- Time Continuum

- [Harmonic Universe](#)
- [Time Matrix](#)

Vector Space Model for SpaceTime of the Attacked Room

I use a simple SpaceTime Model of my own to model the Room I was in and abused, and as I sense there were in the heydays, multiple rooms of abusers are attaching their spaces to my room, as if they were all convoluted into one space, and they can rape and hurt me where they are without being physically in my room. That's why I call it a Virtual Reality phenomenon, the attacker and the victims experience some type of SpaceTime Bending, through technology.

At one point, I use fire in my room, to burn the ceiling, and the walls, and went crazy in fighting with swords, knocking down my own equipments. Well, the only thing that has an effect is the flame. So I am always prepared with some propane torch around, I believe it can cleans the etheric level of attachments.

Now, that would only hold for a while, they will start to manifest again. So I started to sit down and seriously study the science, in attempt to figure out the theory and solution.

I came across the Fourier Analysis Algorithm^[13], and think of using it against the Convoluted Space I experienced, instead of regular radio frequency. As learned how our reality is really hologram from the Science of Keylonta and how our multidimensional bodies are manufacturing the hologram that we call reality, I image the space we live in, as a hologram projected by our Radio Body, that is Crystal like, and they are the projector screen that produce the holographic experience we call reality. This piece of knowledge come from the Keylontic Science. But what it doesn't tell you is the solution to the problem of the Holographic Insert.

Now my experience gave me the clue that these abusing parties are all at their own physical locations, using some type of system to Bend the SpaceTime Continuum to be virtually at my place, by holding a hijacked clone of me in their own space. Because of the DNA link of my clone and myself, the clone of me, and myself, we both possess a Crystal body that manifest the reality fields as the Holographic Projector, then the system manipulate the two spaces as if they are convoluted together. Initially they are meant to do Remote Viewing to surveillance targets, later they develop it to be able to inflict abuses all around the body, and lastly, become a sexual abuse lucrative business.

So My solution is to Model my reality hologram as X, Y, Z, simple Cartesian model of 3D, plus a TimeTrack dimension W, and model the invasion VR room embedding as multiple Holograms attached to my own 3D hologram, as a Linear Summation of Time Wave, as shown below:

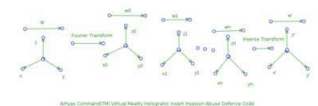

I use linear combination, and it fits into the picture where simultaneous time is experienced by the Mind as linear combination of the simultaneous time waves. And so the Fourier^[13]Technique fits perfectly to the solution.

Strictly speaking, from the Science of Keylonta, the 3D hologram we experience is really consist of Dimension 1, 2 and 3, and they are just frequency bands in different spectrums of vibrations and angular spin rotations. So the X, Y, Z spatial coordinate DOES NOT model the Dimension 1, 2, and 3 respectively, but rather a simple visualization convenience of the Cartesian coordinate system for the 3D. I find this way to be easier to visualize the room, because visualization is key in manifestation, and my solution is through the Mind Visualizing, and intending the Fourier Algorithm^[13] to break up the mashed together rooms, having a relationship that the abuser can attack the victim, while the victim not able to defend. So my solution is simply to decouple all these attached rooms by the mantra.

So then I mentally invoke the Fourier Transform Algorithm^[13] as if I operate from the Dimension above the Radio Body of myself, which is called the Crystal Body, now when I station my consciousness at the dimension above the Crystal Body, that's when you can change the Keylontic Code of the Crystal Body, which is manufacturing the 3D Reality Field as Hologram automatically. My analysis to the problem was somebody managed to distort my Radial Body, and changed the Keylon Code, so the distortion ends up bending the SpaceTime between the attacker and the victim's spacetime. So my solution is the unwind the convolution through the algorithm of Fourier^[13], and SpaceTime Bending Convolution is broken up, so that the attacks are stopped.

Of course, it helps if you understand the Fourier algorithm^[13], and storing the knowledge in your mind will strengthen the effects.

Now with the Code in Mind, simply say the words of prayer in Anuhazi, and the command words in English. It would immediately dismantle the Holographic Insert, or SpaceTime Convolution.

Because the prayer in Anuhazi, is making a true statement that this Dark Technology is breaking the Divine Order of Life, and restoring Divine Order is in the order.

Deh -O'-sho Zha'-DA (Divine Right Order)

Deh-O'sho Ra'-Va (Divine Right Timing)

en et Deh-O'sho Zha-en' (Divine Right Balance)

When you are speaking, you are creating Light in the dimension below our consciousness, the Sound is Light in a dimension below principle from Keylontic Science. So when I recite the prayer, I tried to bi-locate my consciousness both in 3D, and the Density above, which can operate on my Crystal Body distortion and fix things that I could not from 3D alone. This point is very important. The above Code has proven to be very powerful and effective against the VR Room Invasion, Sexual Abuse, Dream State Assault. On Nov someday 2020, I successfully salvaged the situation with the Kindergarten Kids right here on our property, who have been abused for God knows how long. The kid waked up after the the noon nap, and told stories of the abuse to the Care Takers, and later parents, and how 'the old man', i.e. me, saved him.

How VR Room attack human

Channeling Direct Assault through manifesting weapons or sexual assaulting toys. Cell Phone, Security Camera, PC. Any device on the Internet. Network Attack Computer Games In my case, there is a literal campaign by the Evil Government, that set up my school property and myself as targets, in some computer game on the network, and allow anybody to engage in Victim/Victimization Gaming, that directly inflict hurts on myself and damages to the school environment. This is evil in its extreme form, hate crime Mind Control by the Chinese Communist Party. I believe they are on some official web site. It is that outrageous! So a victim can be setup to be assaulted by a network of criminals simultaneously! The intension is to inflict maximum degree of harms and create maximum degree of Victim/Victimization Karma. For this sickening scenario, I use the Elemental Command, together with a Linear Combination formula to sums up all the assault instances into the Time Bending Code:

Define assault instances on the Internet to be , then is the total attacks on the network at any point in time when doing Arhyas Command, from time zero.

Consequence and Agenda of the VR Invasion Attacks

Blocking human evolution in deliberate design of mutations and Victim-Victimization Drama organization. Channeling influence one's own thinking, and subtly insert thoughts into your mind, and conditioning one to accept that as something true, and cause identity confusion. Mental Body convulsion by Astral Being and/or Etheric Devices implants cause attachment that hinder one's normal function in the brain, and psyche. They often come as temptations and replacing the real life experience by demonic form of expression in audio/video holographic inserts. Brain wave frequency is forced to tune on the channel frequency, so that one's own thought becomes a public open book, and reversely, one is susceptible to Mind Control inputs. This also blocks real Higher Frequency Perceptions development as a natural result of DNA activation and evolution. Last but not least, it creates real life criminal cases of rapes and murders on a regular bases.

Mind Control Forms

Pyramid shape etheric devices hanging above your head Implants on the left ear, which presumably makes you listen to the Mind Control channels, and GPS bugging your location. DNA signature hijack to computer network systems, when they enter your private room through Virtual Reality Invasion Quantum Physic Space Time bending worm holes, they hijack dream state self(2/3 of your consciousness into the Shadow Body, and mind control it to be sexually assaulted, and sucking your physical body's Um-Shaddh-Eie, i.e. sexual energy on a nightly bases. Security Camera hijacks from the governmental system override in the Etheric, and use your own security Carmen to project Virtual Reality Space Time invasion to form an alternative Reality Field in the dimension above D3, and can cause direct physical damages when they attack you as you are close to the internet devices and electrical fields.

The Principle of Krystic, Appropriate, Reciprocal Action or Reaction Against Abuse and Victimization

This solution is designed to transcend the Victim Victimization Programming and its drama in the individual's life. What it means to the individual is that the targeting predator, whatever evil intend they had in mind, those evil force would be deflected back to themselves, instead of hurting the victim. For example, if they have rape in mind, the act of raping would resulted in themselves being raped. If murder through piecing an electronic knife into the victim, it would be manifested as such but to themselves. However, for this command to be good and successful, always rely on God Source, and always leave room for a Greater Intelligence and Wisdom, as our Ego may gets in the way, as to dictate what should happen, allow that space of ultimate justice, and complete trust in Source.

How Event Horizon is calculated

Here's what the Freedom Teaching is saying about the Event Horizon:

The_Cycle_of_the_Rounds,_Seeding_3_(the_4_Evolutionary_Rounds_of_the_Human_Christos_Divine_Blueprint)#Regarding_Event_Horizon

[24]

So from reading of the text above, we can see that my Method of applying Phase Conjugation over the Time Wave Model, is just an example of the principle of the Now Moment of creation, in which I consciously intend the event horizon to be changed according to my intention, and in harmonic resonance of a Time Vector that is more adjusted at the Now Moment of my focus, to alter it's event horizons.

The critical elements that contributes to the event horizon change is therefore:

- the intention
- correct the Fire Letters Sequences to the Planetary Shield.
- the Star Gates
- the specific Activation Cycles in the Evolutionary Rounds that mechanically makes Time Shift possible, the 2000-2017 SAC, and now the Kryst Shift Cycle after 2012, Krystar Ascension FailSafe new Time Line Shift.
- the collective consciousness of the Race on the Planet

In reflecting on what happened after the FailSafe engagement, the new Teachings given by the MCEO focused on more advanced Teachings and Provided more Geomancy Codes and journeys, particularly important was the Krystal River Host, and the Silver Seed, which provides the Seed Atom that makes resonating with the Krystal River Host Gyrodome Architecture possible, and Time Line Shift in the 900 year cycle.

No official text has been given yet that I know of what would happen in detail forecasting this 900 years. although the Speaker announce the publication of a "Life After Earth" series about the FailSafe Kryst Shift we haven't seen it in published form yet. Some what I am doing now, is on my own understanding, and struggle with the Psychotronic Attack and Sexual Abuse network problem, and essentially fulfilling a role of a Shifter or even a Shift Master.

How the Principle of Phase Conjugation^[25] is applied in Bending Time Wave in attempt to changing events in the Past, and affecting the current and future events

Wikipedia: Phase conjugation is a physical transformation of a wave field where the result field has a reversed propagation direction but keeps its amplitudes and phases.

"To understand the formula for phase conjugation, one first look at the topic of waves and wavefronts, and interference. Interference are the results from superposition of two or more electromagnetic wave. Phenomena such as refraction, scattering, diffraction, describes how light interacts with its physical environment.

The electric field vector due to an electromagnetic field at a point in space is given by its amplitude and phase or where is the position vector and both the Amplitude and phase are functions of the spatial coordinate and time. As we will see below, polarization state of the field is contained in the temporal variations in the amplitude vector. The expression can be simplified if a linearly polarized monochromatic wave is assumed:

where is the angular frequency in radians per second and related to the frequency by

Some typical values for the optical frequency are Hz for the visible, Hz for the infrared, and for the ultraviolet.

Note that in the expression for the electric field vector, the time dependence has been eliminated from the amplitude term to indicate a constant linear polarization. The phase term has been split into spatial and temporal terms.

At all locations in space, the field varies harmonically at the frequency . The simplest example of an electromagnetic wave is the plane wave. The plane wave is produced by a monochromatic point source at infinity and is approximated by a collimated light source. The complex amplitude of a linearly polarized plane wave is

where is the wave vector, its magnitude is the wave number where is the wavelength. The wavelength is related to the temporal frequency by the speed of light in the medium:

These lights correspond to the 15 dimensional dimensions. You can imagine that they surround the body like a rainbow, colorful, and the prayer words will automatically produce the corresponding colors. If you can imagine the corresponding colors that have been specified, the effect will be better. At this time, your body is protected by the rainbow holy light (plasma field), just call the code diagram and attack method I created by myself, and use the time-space model to counterattack against the attack wave's time reversal method, as follows:

Step 4: Holographic Time Bending

1. Station your consciousness as high as possible and imagine all the way in Source Field, while imagining standing outside of Event Horizon, in God Source Consciousness Field, where there is Infinite Wisdom, Infinite Love, and Infinite Power.

2. Command [Let there be Light](#)

to the Time and space where there were Darkness, i.e. Time zero(), for example, the first time the Targeted Individual Event in your life, while intending Phase Conjugation on the Six simultaneous Time Tacks of the One Time Continuum as depicted in the diagram, all the way to , and manifest LIGHT from Source Field, to every event of darkness(an event is a point in time in the SpaceTime Model):

3. Then issue command to recalculate Event Horizon, up to the NOW, while imagining the SpaceTime Continuum of your Hologram changing.

4. At the same time, imagine that the space-time continuum of the hologram is changing, as follows: when you open from the left, your existence space-time, use the Fourier transform algorithm (my theory is that the human body comes with these algorithms, because the human body is a holographic projector that creates phenomena space-time. You only need to use your mind to call) Disassemble all the overlapping holographic subspace-dimensional infringement time and space, and pass the above time wave back and bounce back to the invader's time and space point and disappear. As shown below:

In your Mind, perform this VR Room Holographic Insert Removal algorithm® 1. Fourier Analysis of Density Hologram X , Y , Z of the targeted room, and it's Time Vector W

2. Fourier Decomposition into the following categories:

- X_0, Y_0, Z_0 of the original hologram, with deconvoluted time track W_0
- $(x', y', z')^n$ of the multiple embedding of VR ROOMS on the same target location, with corresponding Time Vectors $(w')^n$
- X'', Y'', Z'' of the Controller(Mind controller, Black hole invader 3D human organization or individual) room with their own Time Vector

3. Ask the DNA of myself and all human being in those holograms to manifest the original hologram , and time track , as their victimization drama reverted and transmuted in the NOW moment as Time Pulse 1 T_1 during inhaling, becomes Time Pulse 2 T_2 back flow to Source during exhaling, meeting incoming Time Pulse 3 T_3 at the NOW moment, co-create with Source the intended effects stated above.

Step 5: Recite:

Ta A'jha -in'ta DO' -A

Ta A'jha -in'ta DO' -A

(It is spoken so, so it shall be done) Recite or mentally hold the Arhya Command Objective to restore Devine Order, and repair DNA damage and Reality Field Manipulation.

Step 6: Transmuting the DNA Hijack by performing Bardoah Rites on Hijack Soul Fragments(This is critical)

Brevity Code

Create a Brevity Code “Transmute DNA Hijack” with the following intend and procedure: Intend: Transmute the DNA Hijack by the Psychotronic Attack Network Systems. These data exist in some data bank of entities that is holding Human DNA bond, and use it compute Targeted Individual Attack frequency. So apply the principle of Transmutation as described by the Transduction Sequence Mechanics in previous section, at Time Zero, when Time Pulse 1 meets the backflow Time Pulse 2, the creation power moment, and intend the reverse mathematical sequence of the DNA Clone to be applied with the DNA Clone manifestation, and transmute to a merkaba to disappeared to the Density Above, just like the process in Automative Transmutation of the Hologram Frame at each Time Pulse.

Important Development which has effects: Bardoah Rites for captured Soul Fragments of your own or other victims

Theory of how the abuse system works:

When a targeted victim fall asleep, his/her brain frequency falls the the Alpha State range, (according to some source between 5 to 10 Hz, or whatever). Now imagine there is special type of Radar System that constantly broadcast a carrier wave of this Alpha Brain Wave Spetra, and when an individual fall asleep, his/her brain wave is broadcasting to the Reality Field of the planet, i.e. the 3D Holographic Reality Field we call solid world, as well as to the atmosphere and the Universe, at a speed faster than light.

The individual's brain wave frequency is unique and its signature is unique, or waveform.

Suppose someone figure out how to model this brainwave pattern with a one-to-one relationship to an individual, then he can create this Radar to detect the presence of the individual whenever he/she falls asleep.

What happens next is systematic, the abuse system then generate a frequency response to the event of the individual fallen asleep, and send it to the spacetime location of the targeted victim, and create a forced phase lock with the vicitim's natural brainwave. This way, the attacker can now establish an artificial channel to the target's brain and his/her body.

Now the person who were just falling to sleep, part of his/her soul quantum is going to leave the body into the astral field, and from which point entering dream state travel, into probability time matrix, to experience dream time.

Normally, we enter dreams that are our own Soul's probability time vectors, sometimes, we are hijacked into the Phantom time matrix, which is what nightmare is. The triggering mechanism for the nightmare is the what is called the Shadow Self Dancer, which is an alien implant in the human body to do just that, hijack our shadow self soul quantum when we fall asleep.

Through this channel, they continue to monitor the Entropy Rate (http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Entropy_rate) of the body, to tell them the exact time this body is at its hight of cellular regeneration , through the body's natural Um-Shaddh-Eie phasing cycle during sleep.

Now the Um-Shaddh-Eie phases naturally whether or not you are engaging in sexual activity, that's why Children also has this process during sleep. It is an essential process of staying alive, to regenerate and replenish body quantum, manifested into the body's system, flesh and blood.

But this process can be observed with a heat wave pattern, and also can be intensified through sexual arousal.

Now somebody already mastered the exact frequency to target the brain to trigger sexual arousal state of the body. They then enter this frequency to the channel towards the targeted victim. The targeted victim picks up the signal, and experience sexual arousal in dream state. In male, would be the pennis rising and harden, in female, the Vagina harden and wetten, you know the normal stuff. Now the victim might or might not be driven to the act of masterbation, depending on his/how own mental control of the body. If his control is weak, then he would lost himself and wildly masterbate, if his control is strong, he simply stays in arousal state without any sexaul activity, while the

soul continue in dreamstate, i.e. part of the soul quantum leaves the body and travel in time vector of the probability Time Matrix, or in this case of the attack, being hijacked to an specific spacetime coordinate, like some other victim in the same abuse system. This spactime coordinate is in the Astral Field, outside of the physical body, and it is invisible to the normal eyes, as it is in Dimension 4 or up.

Criminal Intents that are already working and creating huge profits for the Criminal network

Harvesting victims life quantum through remote Scalar Wave siphoning

Selling the victims forced state of arousal in dreamstate raping as a for profit business, through Virtual Reality Game and DNA cloning as Mind Controlled Dummies

Solution: Soul Fragment Release procedure through Bardoah Rite:

This Bhardoah Rite is normally done for the physical death of a life, when the physcial body would transmute into vapor, and the Soul Quantum return to the Spirit. Here is my innovation in which I am using this same principle regarding how Souls are fused with the body, but in this case, I imagined are the deomons in the hijack world, to release the Soul Fragment Hijack from the Demonic Cyberspace hijack of the Soul Fragments through Brain Wave Frequency Forced Phase Lock Mind Control when we fall asleep.

The Hijack Soul Fragments are then birthed to the Astral Field simultaneously as well as in the Virtual Reality World in the Criminal's Abuse Network Computer Systems, where the demons are often hybrids mutant to be dumped down and mind controlled, as sex slaves.

While the sex abuse is going on, the physical body of the victim while they are sleeping, is experiencing arousal, and even orgasm, but the energy is being vampired through the wormhole link between the hijacked Soul Demon and the Physical Body.

Once you learned the steps described here and train your mind to be familiar with it. When you fall asleep and detect the abuse happening, i.e. forced sexual arousal, all you got to do is from the consciousness you still hold when you are asleep, call out "Arhyas Command! Bhardoah my hijacked soul fragment and return home to the my Spirit in Wholeness!"

Then Do a Big inhale, while in mind going through collecting all hijacked soul quantum through the already learned process described above, followed by a big exhale, sending the Soul Fragment to the Gha-fa. You are then immediately disappeared from the Hijacker's control and manipulation. Your hijacked Soul disappeared from the hijack and retuned home to your Spirit.

Then in Divine Timing, all hijack Soul Quantum return to your body, and this way, your Soul energy and power are restored, and your life experience is much more empowered and you feel like you are young again.

Step 1: Request Silent Sound Tone 1 for Density 1

Request from the Spirit Body the Sound Tone to initiate closing of the Chakras 1, 2, 3 corresponding to dimension 1, 2, 3, in the Hijacked Body and Soul Quantum to collect at the EUmbie(2 inche below Navel (

Step 2: Request Silent Sound Tone 2 for Density 2

Request the second Sound Tone from the Spirit Body to initiate closing of the Chakras 4,5, 6, corresponding to dimension 4, 5, 6 and collect Soul Quantum to the AzurA(base of Thymus (<http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Thymus>)).

Step 3: Request Silent Sound Tone 3 for Density 3

Request the Third Sound Tone from the Spirit Body to initiate closing of the Chakras 7,8,9 , corresponding to dimension 7, 8, 9 and collect Soul Quantum to the Pineal or Pineal Gland(Center of the Brain).

Step 4: Request Silent Sound Tone 4 for Density 4

Request from the Spirit Body the Sound Tone to initiate closing of Morphogenetic Chakras 10, 11, 12, corresponding to dimension 10, 11, 12 and collect all Soul Quantum at the EUmbie, Pineal or Pineal Gland, to the AzurA(base of Thymus (<http://wikipedia.peertalk.net:9000/viewer#wikipedia/A/Thymus>)).

Step 5: Request Silent Sound Tone 5 to Open Bhardoah Chamber

Request from the Spirit Body the Sound Tone to open the Bhardoah Chamber from the AzurA towards the back, a light tunnel passing through the Dark matter body(Rasha Body) to the point where we were born from the Spirit Body, a point called the Gha-fa.

Then collect all Soul Quantum to flow back to the Spirit through this passageway.

As the recovered soul quantum return the Spirit Body, request them to pass through the Amoraea Flame, and activate this flame by singing this Technique 12 (Part B) "I AM the Sacred Sun" LTR Grid and Psonn.

This would help the recovered soul quantum to clear Victim-Victimizer Karma records and heal its energetic signature to be Krystic, which is a great benefit in terms healing.

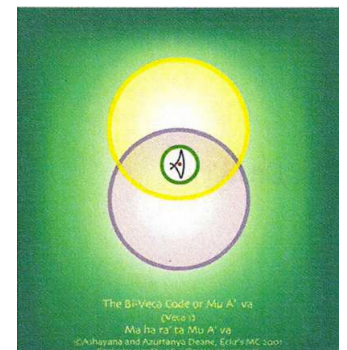

Finally, read the following prayers: Prayer For Safe Passage in order to disperse the DNA clone demon in the Astral Plane, who are harassing you in this scam setup. Because these DNA cloned demons, are manufactured by stolen DNA codes from real people(including yourself), they are generated in the 4th dimension in the computer network (especially the surveillance system). They are completely mind controlled and are used to block the evolution of humans. Reading this prayer helps to liberate your own DNA being hijack.

New Step : Intend to make this part of your DNA evolution, an Auto-Immune Response, TimeBending function , by inducing the following new code:

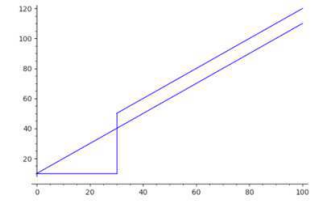

“The Bi-Veca can be used for Manifestation, to embed things in the DNA then turn it into the activation code.”

New Step 6-9-2021: Making a musical Brevity Code of the Arhyas Command with “I had it my way”. e.g. I play “I had it my way” on my cello to encode the whole Arhyas Command as a piece of music.

New Step 6-9-2021: New Visualization Code ©:

A leap of jump time in the Event Horizon in Mankind's evolution time line, where the Light Quantum Index take a dramatic uptake to meet the Planet's steady progressive towards the 900 year ascension Timeframe. Using it can accelerate the rise of light energy of individuals and groups, and complete the simultaneous advancement of human beings and the earth, until the great historical event of the sublimation of the earth and mankind (ascension event) after 900 years.

Version 3.1 Jehovian Seal Clearance Upgrade

As it relates to the discovery of underground man-made Selinoid Coil(Mobius Coil), that is used for Mind Control Broadcast, the new investigation is questioning how Remote Sexual Energy Siphoning works. This is another insight from reading the Jehovian Seal article, about its function to connect to Phantom Matrix, through External Merkeba technology.

So the key idea is that the energy siphoning also works with some type of external merkeba technology(black hole), in that energy is siphoning through the specific configuration of EM torsion fields, and angled precision to the Blackhole, or to a 3D criminal. How does work, we need to work out the theory.

Although my TimeBending technique is working because of its superior Timewave model, we still want to understand and pinpoint theoretical evidence that these devices could be used to siphon energies to specific criminal sites.

The solution to clear the seals are: "The Khu-Veca, Dha-Veca, Rha-Veca, codes have the ability to override the Jehovian Seals in the physical and planetary body."

Also from a scientific theory perspective, the following article is very interesting: ^[27]

Version 4.0 Veca Code + Mechanics of Manifestation + Resurrection Upgrade

"Part of learning mastery, is learning mind/mental body control. This must be done by starting off with absolute love, non-judgement and forgiveness for yourself. Allow what comes up in your emotional body with all its distortions, to move through you by simply acknowledging the emotions as frequencies. When you allow both opposing emotions to flow through you with engaged detachment, they will come together, transmute and go to the next level up. Units of conscious can leave the hologram as space dust - have little to no memory of themselves as anything else but energy - or you can expand your form to hold the knowledge, wisdom and vibration of the entire time matrix and the energy matrix beyond it and then reunite with Source. You can return as undifferentiated units of consciousness that do not hold memory of the journey you were on or consciously co-create with and as Source. You allow both the good and the bad to flow through you as energy because as soon as you push something away, you are guaranteeing you are going to lock yourself up into a relationship with it."

5. Recompute Event Horizon

Sep 2, 2023 Upgrade 13

Algorithm Upgrade with Recursion to address multi-layer trade and trafficking of DNA/clone

function prototype:

```
int Arhyas_Command(SpaceTime_Obj Me, SpaceTime_Obj To)
```

Recursion Algorithm:

infinite loop:

procedure stop condition: all DNA records copies are erased, all soul fragment hijacks are released, all equipments responsible doing the clone manufacturing and websites selling the Sexual abuse are shut down.

each iteration would detect the type of abuse, and based on the type, execute the corresponding procedure as follows:

9-22 2023, Upgrade 13.5: Livestream to the Network

Automated the Arhyas Command Algorithm, and strengthened the effect of its intention.

April 17, 2024 Upgrade 14: Making Arhyas Command Shield Network of People

Last night as I was going through some struggle with the Psychotronics attack as usual, only in so far as helping other victims, are in the category of struggle.

I come up with the Creative Idea of forming Network of Arhyas Command Individual Shield by raising the egg shape Gold-Silver Colored Energetic Protection Shield that is programmed with this Arhyas Command Algorithms, allowing the connection between Nodes, just like a Network Graph, and the transmission of messages and energy among the network nodes.

This is in response to the Network Kill by the enemy who routinely attack victims with a network of users over the internet using computer equipment and special Psychotronics devices, to target individuals.

So this shield of People network, is very very powerful, because now we have a collective protection alarm system that makes individual much less vulnerable, and powerful in response to attack events.

Well Done! Why didn't I think of that before? This completely defeat the psycho's agenda last night.

April 20, 2024 Upgrade 15: Quarantine the Evil Entity from which Evil Intend deflected back to itself preventing crimes to manifest on victims

This upgrade is to raise a Quarantine Shield around the Evil Entity in the alleged Criminal Headquarter and all its network nodes, to deflect evil intend back to the criminal themselves, effectively guarding the evil outflow to hurt anybody.

This is a Krystic measure when the damage and thread from certain entity is too great, to Time Sealed it to prevent any further abuse.

The Quarantine Shield is specifically built with Arc of the Covenant with its divine intention of Synocracy, in which it stated:

"If another-abusive, exploiting civilization refuses to recognize the Eternal Law of One and its interconnection to the whole, it will find itself quarantined with others of its kind, with emissaries sent from Christos societies to offer loving Law of One re-education to facilitate healing.

Such quarantine will remain until the civilization demonstrates the willingness to use its power of Free Will Choice in ways that do not damage the Universal Creation Framework or violate the Free Will Rights of the Universal Collective.

If abuse of Free Will is permitted to destroy the very framework that allows for the existence of Free Will Choice, the gift of Free Will Choice becomes compromised by misapplication of itself and serves as the vessel of its own demise."

April 27, 2024 Important Upgrade 16: TimeBend on Psychotic/Slut Frequency on 9-11-2001

Recorded live session:

As situation in the black building where they keep committing crimes, due to their psychotic impulse, I decided to do this upgrade with the time sealing the specific psychotic frequency from the wormhole systems.

The Principle of Phase Conjugation in the healing aspect of the command

As in optical science, phase conjugation technique can used to correct distortions and restore original images, or even holograms, we are applying the same principle in healing on the Light Body(Crystal Body), although Light Body is considered temporal, meaning it is not Eternal, therefore subject to distortions and diseases, we can heal the Light Body with the Principle of Ka Tha Ra, a.k.a. Light, Sound, One.

What I am doing here is combing the optical science principle with the Kathara principle in the mathematical formula on the SpaceTime model, in the healing the distortion of the Light Body exercise. This seems to create wonderful miraculous results.

When intending and cocreating with source using the Phase Conjugation Principle, it has dramatic healing effect, particularly on the Crystal Body, distortion.

Arhyas Command TimeBend Solution for COVID-19 (This my own proud creation):

1. Define Time Zero to be the Transduction Time before the COVID-19 virus program in wave form, just going to manifest through Transduction Sequence ability of any life form, animal, humans etc. 2. Define Time One to be the Physical Contact point even when the virus manifested as physical form, and contacting the human body cell.
3. Recite the Mantra: "Let There Be Light" as the mind visualize Arc of the Covenant Golden Frequency in the form of Plasmas doing Phase Conjugation through the Six Simultaneous Time Wave in the Code, time reversing the events of and defined previously. This would prevent or time reverse the virus manifestation, and or virus infection.
4. Recite the Mantra: "Recalculate Event Horizon". This will triggers the healing and recovery as if the disease never exist or infection never happened.

Focus are now balanced on the COVID pandemic, while the Psychotronic attacks are very much contained.

The tools planned to use: [40] [41]

(Note: June 5, 2022, update) I downloaded the software provided by the EU project, but it failed to execute, due to some software framework issue. So this approach is put on hold for the time being.

I am switching focus on the following approaches: Demonstration and proving the results of the Induction of Geomancy Codes
